

Children's Book: Autobiography

Hi. My name is Josh and I am one of the authors of this book. I live in New York, near Manhattan with my mother and my sister. I am in secondary 2 and I go to Sherman High school. My favourite things to do (hobbies) is hanging out with my friends, playing basketball after school and going to the mall.

When I grow up, I would like to be an airplane pilot for the United States Army. I love airplanes and I think it would be the best job for me.

My favourite kids book when I was small was "Aladdin, prince of thieves". I really had a good time doing this book with Amanda. She was the writer of the story and I was the artist of the drawings.

Hello everybody!

My name is Amanda, and I am also one of the authors of this kid's book. I live in New York and I am 14 years old (fourteen).

I love kids and I have one younger sister, so for me this project was lots of fun. When I grow up, I want to become an elementary teacher.

My hobbies are talking on the phone, going shopping and playing in the volleyball team at school. When I was a little girl, I really liked the story of "Cinderella".

I really hope you love this book! I'd also like to thank Josh for the good work. Bye.

INSTRUCTIONS:

Now that you have finished creating your children's book, you and your partner need to write a little something about yourselves, behind your book. Follow the examples above and answer these wh-questions:

The Precocious Child in Victorian Literature and Culture Roisín

Laing, 2024-05-06 This book examines representations of precocity in Victorian textual culture canonical literature children's fiction scientific texts and writing by children to argue that precocity challenges the idea of progress It considers how practitioners of literature and science from Wordsworth to Freud represented human development and the way in which Darwin's non progressive model of evolution troubled the existing model of progression by stages from childhood inexperience to adult maturity and understanding Roisín Laing argues that the precocious child undermines the equation of growth with progress and thereby facilitates other ways of imagining both individual and species development The idea represented by the precocious child in Victorian culture that the adult is not necessarily an improvement on the child the human not necessarily an improvement on the ape still troubles us today

Autobiographical Memory and the

Construction of A Narrative Self Robyn Fivush, Catherine A. Haden, 2003-05-14 It is a truism in psychology that self and autobiographical memory are linked yet we still know surprisingly little about the nature of this relation Scholars from multiple disciplines including cognitive psychology developmental psychology anthropology and philosophy have begun theorizing and writing about the ways in which autobiographical memory is organized the role that narratives play in the development of autobiographical memory and the relations between autobiographical memory narrative and self concept If narratives are a critical link between memory and self then it becomes apparent that the roles of language and social interaction are paramount These are the issues addressed in this volume Although individual authors offer their own unique perspectives in illuminating the nature of the link between self and memory the contributors share a perspective that both memory and self are constructed through specific forms of social interactions and/or cultural frameworks that lead to the formation of an autobiographical narrative Taken together the chapters weave a coherent story about how each of us creates a life narrative embedded in social cultural frameworks that define what is appropriate to remember how to remember it and what it means to be a self with an autobiographical past
