Empire Found Daniel F. Silva, 2022-09-15 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM Empire Found Racial Identities and Coloniality in Twenty First Century Portuguese Popular Cultures examines how the discourses and narratives of Portuguese imperial exceptionalism and Portuguese racial identity developed during the last centuries of Portuguese settler colonialism continue to inform an array of cultural production and consumption in the four decades since decolonization By examining a range of contemporary popular cultural production literature football musical production and celebrity culture in critical conversation with intellectual production of the nineteenth and twentieth centuries Empire Found examines how narratives of Portuguese racial hybridity and indeterminacy operate alongside ongoing structures of coloniality and white supremacy in the realms of cultural production I argue that these implied or overt historical dialogues carried out through cultural production are integral to the very reproduction of the Portuguese nation state apparatus as well as its racial structures and claims to whiteness in the wake of decolonization and marginal integration into the European Union
