Solutions of Operator Equations and Extreme Elements D.A. Klyushin,S.I. Lyashko,D.A. Nomirovskii,Yu.I. Petunin,Vladimir Semenov,2011-10-05 Abstract models for many problems in science and engineering take the form of an operator equation The resolution of these problems often requires determining the existence and uniqueness of solutions to these equations Generalized Solutions of Operator Equations and Extreme Elements presents recently obtained results in the study of the generalized solutions of operator equations and extreme elements in linear topological spaces The presented results offer new methods of identifying these solutions and studying their properties These new methods involve the application of a priori estimations and a general topological approach to construct generalized solutions of linear and nonlinear operator equations The monograph is intended for mathematicians graduate students and researchers studying functional analysis operator theory and the theory of optimal control
