towards understanding some of science's big ideas and engage with important issues related to climate change. There are also opportunities for children to develop skills and understanding from other curriculum areas such as geography, design, technology, and art. The easy-to-use book covers topics such as Weather, Climate, Climate change, Impact of the climate crisis on our lives, Impact of the climate crisis on wildlife, The world we must create, Taking climate action. By making the ideas their own, children can develop informed ways of thinking about issues related to climate change and feel empowered to act in ways which can make a difference. Full of ideas about the climate crisis, *Big Ideas in Primary Science* is a comprehensive, valuable, and essential resource for all teachers of primary science. *Essential Guides for Early Career Teachers:*

Understanding Your Role in Curriculum Design and Implementation Henry Sauntson, 2025-02-28. This is a must-read for early career teachers (ECTs) focusing on the role of the ECT in terms of school curriculum design and implementation. It explores the topics surrounding curriculum that those in training or ECT induction are likely to encounter and need to understand and offers a range of practical and critical strategies and approaches to curriculum design. It begins with examining the history of the core ideas around curriculum, including educational philosophy and concepts, before moving on to planning, reflection, and principled intent and implementation. It also delves into the various roles of those involved in curriculum design. This is an essential text for ECTs as curriculum is a key aspect of the Core Content and Early Career Frameworks. It draws on real-life enactments and models to help those in their early stages understand their role in curriculum implementation, especially in relation to the Ofsted focus on the quality of education and the role of all teachers as professionals. Most importantly, this book recognises curriculum as the beating heart of any strong educational offer. *Current Scenario of Transformation in Teacher Education* Dr. A.C. Lal Kumar and Dr. M. Rajesh Kumar, 2019-06-22. Education seeks to provide the intellectual enlightenment and the spiritual emancipation in the search for a better existence for all life on earth. Teacher education must target skills for the 21st Century and beyond to address the needs of a knowledge society. These days, the teacher's education system is facing a problem of inaptness and irrelevance. There is a visible gap between how students live and how they learn. Schools and colleges have struggled to keep the pace with the rate of change in students' lives inside and outside the educational institution. Innovative educational practices support the development of new capabilities and surfacing stumbling blocks on the road to innovation implementation. *The IACUC Administrator's Guide to Animal Program Management* William G.
