Spirits and Ships Andrea Acri, 2017-03-13 This volume seeks to foreground a borderless history and geography of South Southeast and East Asian littoral zones that would be maritime focused and thereby explore the ancient connections and dynamics of interaction that favoured the encounters among the cultures found throughout the region stretching from the Indian Ocean littorals to the Western Pacific from the early historical period to the present Transcending the artificial boundaries of macro regions and nation states and trying to bridge the arbitrary divide between inherently cosmopolitan high cultures e.g. Sanskrit Sinitic or Islamicate and local or indigenous cultures this multidisciplinary volume explores the metaphor of Monsoon Asia as a vast geo environmental area inhabited by speakers of numerous language phyla which for millennia has formed an integrated system of littorals where crops goods ideas cosmologies and ritual practices circulated on the sea routes governed by the seasonal monsoon winds The collective body of work presented in the volume describes Monsoon Asia as an ideal theatre for circulatory dynamics of cultural transfer interaction acceptance selection and avoidance and argues that despite the rich ethnic linguistic and sociocultural diversity a shared pattern of values norms and cultural models is discernible throughout the region *The Routledge Handbook of Heritage Language Education* Olga E.

Lamport, 2018-06-01

Christianity has transformed many times in its 2 000 year history from its roots in the Middle East to its presence around the world today From the mid twentieth century onward the presence of Christianity has increased dramatically in Asia Africa

and Latin America and the majority of the world's Christians are now nonwhite and non-Western. The Encyclopedia of Christianity in the Global South traces both the historical evolution and contemporary themes in Christianity in more than 150 countries and regions. The volumes include maps, images, and a detailed timeline of key events. The phrases Global Christianity and World Christianity are inadequate to convey the complexity of the countries and regions involved; this encyclopedia, with its more than 500 entries, aims to offer rich perspectives on the varieties of Christianity where it is growing, how the spread of Christianity shapes the faith in various regions, and how the faith is changing worldwide.

Introduction to Cambodia Gilad James, PhD, Cambodia, also known as the Kingdom of Cambodia, is located in Southeast Asia with Thailand to the northwest, Laos to the northeast, Vietnam to the east, and the Gulf of Thailand to the south. The country has a rich and tumultuous history with ancient Hindu and Buddhist kingdoms, European colonialism, and the devastating rule of the Khmer Rouge. Despite its troubled past, Cambodia has made significant progress in recent decades and is emerging as a popular tourist destination. Cambodia's capital city is Phnom Penh, which is known for its French colonial architecture, bustling markets, and the Royal Palace. Other popular tourist destinations include Siem Reap, home to the famous Angkor Wat temple complex, and Sihanoukville, a coastal city with stunning beaches and offshore islands. The country's official language is Khmer, and the currency is the Cambodian riel. Cambodia's economy largely relies on agriculture, with rice being the main crop, and tourism has become a significant source of income in recent years.

Scars of Partition William F. S. Miles, 2014-07-01. Based on three decades of fieldwork throughout the developing world, *Scars of Partition* is the first book to systematically evaluate the long-term implications of French and British styles of colonialism and decolonization for ordinary people throughout the so-called Third World. It pays particular attention to the contemporary legacies of artificial boundaries superimposed by Britain and France that continue to divide indigenous peoples into separate postcolonial states. In so doing, it uniquely illustrates how the distinctive stamps of France and Britain continue to mark daily life along and behind these inherited borders in Africa, Asia, Oceania, and the Caribbean. *Scars of Partition* draws on political

science anthropology history and geography to examine six cases of indigenous indentured and enslaved peoples partitioned by colonialism in West Africa West Indies South Pacific Southeast Asia South India and the Indian Ocean William F S Miles demonstrates that sovereign nations throughout the developing world despite basic differences in culture geography and politics still bear the underlying imprint of their colonial pasts Disentangling and appreciating these embedded colonial legacies is critical to achieving full decolonization particularly in their borderlands *History of Soybeans and Soyfoods in Korea (544 CE to 2021)* William Shurtleff; Akiko Aoyagi, 2021-05-31 The world's most comprehensive well documented and well illustrated book on this subject With extensive subject and geographic index 144 photographs and illustrations Free of charge in digital PDF format *History of Soy Sauce (160 CE To 2012)* William Shurtleff, Akiko Aoyagi, 2012
