Psychological Components of Sustainable Peace Peter T. Coleman,Morton Deutsch,2012-06-15 Scholarship on the psychology of peace has been accumulating for decades The approach employed has been predominantly centered on addressing and preventing conflict and violence and less on the conditions associated with promoting peace Concerns around nuclear annihilation enemy images discrimination denial of basic human needs terrorism and torture have been the focal points of most research The Psychological Components of a Sustainable Peace moves beyond a prevention orientation to the study of the conditions for increasing the probabilities for sustainable cooperative peace Such a view combines preventative scholarship with a promotive orientation to the study of peaceful situations and societies The contributors to this volume examine the components of various psychological theories that contribute to the promotion of a harmonious sustainable peace Underlying this orientation is the belief that promoting the ideas and actions which can lead to a sustainable harmonious peace will not only contribute to the prevention of war but will also lead to more positive constructive relations among people and nations and to a more sustainable planet The Psychological Components of a Sustainable Peace is valuable and stimulating reading for researchers in peace psychology political psychology and conflict resolution as well as others who are interested in developing a sustainable harmonious world

SDG18 Communication for All, Volume 1 Jan Servaes,Muhammad Jameel Yusha'u,2023-03-25 The 2030 agenda for development or what is known as the Sustainable Development Goals SDGs is the most ambitious agenda collectively agreed upon by 193 countries in human history In 2015 the UN Member States adopted

the 17 SDGs as a framework that would help address the challenges being faced by humanity From eradicating poverty ending hunger providing universal access to healthcare and education and addressing climate change to the partnering of individuals communities and nation states to achieve global goals Yet the framers of the 2030 agenda forgot to dedicate one goal focused on the role of communication in achieving the SDGs It is nearly impossible to achieve the SDGs without the articulation and embrace of the role of communication in development Today development has become a communication issue and communication is a development issue How could such a vital pillar of life be missing in the UN s Sustainable Development Goals Volume 1 provides an overview of what the contributors have termed as the missing link between existing SDGs Communication for All

Psychology as a Dialogical Science Maria Cláudia Santos Lopes-de-Oliveira,Angela Uchoa Branco,Sandra Ferraz Dourado Castillo Freire,2020-05-14 This book intends to translate into theoretical methodological and practical language the principles of dialogical psychology Throughout the 19th and 20th centuries theoretical models in psychology have approached human mind and behavior from a monological point of view a generalizing perspective which ignored the core role of social transactions in the construction of the person and sought to explain psychological functioning only looking inside individuals minds and brains or in mechanist sets of reinforcement contingencies However for the last 40 years critical perspectives within the fields of psychological and sociological theoretical thinking have produced an important epistemological shift towards a new dialogical paradigm within the behavioral and social sciences The contributions in this volume intend to present both the theoretical framework and possible applications of dialogical psychology in different fields of research and practice such as Developmental psychology School and educational psychology Social and personality psychology Education Social work Anthropology Art Psychology as a Dialogical Science Self and Culture Mutual Development will be an invaluable resource to both researchers and practitioners working in the different areas involved in the study and promotion of healthy human development by providing an alternative scientific framework to help overcome the traditional reductionist monological explanations of psychological phenomena
