The ultimate bolt-on ARMS turbo series. After extensive testing of dozens of various combinations on the engine bench Dyno, we have finally found the best possible combination for an all round performance turbo. Response, torque characteristics, peak power points whilst still maintaining drivability. These are the key design points of our ARMS series turbochargers.
With a stronger actuator our turbine will perform better at the boost levels required and keep it stable at higher levels. Our kit comes complete with the gaskets and piping required for the upgrade.
