International Perspectives on Rethinking Evil in Film and Television Tüysüz, Dilan, 2020-12-22 Aestheticization of evil is a frequently used formula in cinema and television. However, the representation of evil as an aesthetic object pushes it out of morality. Moral judgments can be pushed aside when evil is aestheticized in movies or TV series because there is no real victim. Thus, situations such as murder or war can become a source of aesthetic pleasure. Narratives in cinema and television can sometimes be based on a simple good/evil dichotomy and sometimes they can be based on individual or social experiences of evil and follow a more complicated method. Despite the various ways evil is depicted, it is a moral framework in film and television that must be researched to study the implications of aestheticized evil on human nature and society.

International Perspectives on Rethinking Evil in Film and Television examines the changing representations of evil on screen in the context of the commonness, normalization, aestheticization, marginalization, legitimization, or popularity of evil. The chapters provide an international perspective of the representations of evil through an exploration of the evil tales or villains in cinema and television. Through looking at these programs, this book highlights topics such as the philosophy of good and evil, the portrayal of heroes and villains, the appeal of evil, and evil's correspondence with gender and violence. This book is ideal for sociologists, professionals, researchers, and students working or studying in the field of cinema and television, and practitioners, academicians, and anyone interested in the portrayal and aestheticization of evil in international film and television.

The Humanistic Tradition Gloria K. Fiero, 2001-11 Designed for the Introduction to Humanities curriculum, this volume guides students from the Paleolithic through Greco-Roman culture and the arts of India and China. It also serves as a supplement in courses on prehistory, classical history, or Greek and Roman literature.

The Archaic Paul Bishop, 2011-09-30 The Archaic takes as its major reference points C. G. Jung's classic essay *Archaic Man* (1930) and Ernesto Grassi's paper on *Archaic Theories of History* (1990). Moving beyond the confines of a Jungian framework to include other methodological approaches, this book explores the concept of the archaic. Defined as meaning old-fashioned, primitive, antiquated, the archaic is in fact much more than something very, very old; it is timeless, inasmuch as it is before time itself. Arch, Urgrund, Ungrund, primordial, darkness, eternal, nothing are names for something essentially nameless, yet whose presence we nevertheless intuit. This book focuses on the reception of myth in the tradition of German Idealism or Romanticism: Creuzer, Schelling, Nietzsche, which not only looked back to earlier thinkers such as Jacob Boehme but also laid down roots for developments in twentieth-century thought: Ludwig Klages, Martin Heidegger. The Archaic also includes studies of the Germanic dimension of the archaic: Charles Bambach, Alan Cardew, a discussion of the mytho-phenomenological approach to the archaic: Robert Josef Kozljani, a series of articles on Jung's understanding of the archaic: Paul Bishop, Susan Rowland, Robert Segal. This book will be of interest to psychoanalysts, anthropologists, and phenomenologists, as well as students of psychology, cultural studies, religious studies, and philosophy, as it seeks to rehabilitate a concept of demonstrable and urgent relevance for our time.
