Finding on the Internet Carole A. Levitt, Mark E. Rosch, 2006 Written for legal professionals this comprehensive desk reference lists, categorizes and describes hundreds of free and fee based Internet sites. You'll find it useful for investigations, depositions and trial presentations as well as company and medical research, gathering competitive intelligence, finding expert witnesses and fact checking of all kinds. Art Information and the Internet Lois Swan Jones, 2013-12-16 In the first book of its kind, art information expert Lois Swan Jones discusses how to locate visual and textual information on the Internet and how to evaluate and supplement that information with material from other formats: print sources, CD-ROMs, documentary videos and microfiche sets to produce excellent research results. The book is divided into three sections: Basic Information, Formats, Types of Websites and How to Find Them, and How to Use Web Information. Jones discusses the strengths and limitations of Websites; scholarly and basic information resources are noted and search strategies for finding pertinent Websites are included. Art Information and the Internet also discusses research methodology for studying art, historical styles, artists working in various media, individual works of art and non-Western cultures as well as art education, writing about art, problems of copyright and issues concerning the buying and selling of art. This title will be periodically updated.

Because Internet Gretchen McCulloch, 2020-07-21 AN INSTANT NEW YORK TIMES BESTSELLER Named a Best Book of 2019 by TIME, Amazon and The Washington Post. A Wired Must Read Book of Summer. Gretchen McCulloch is the internet's favorite linguist and this book is essential reading. Reading her work is like suddenly being able to see the matrix. Jonny Sun, author of *Everyone's a Little Bit* when you're a little bit too. Because Internet is for anyone who's ever puzzled over how to punctuate a text message or wondered where memes come from. It's the perfect book for understanding how the internet is changing the English language, why that's a good thing, and what our online interactions reveal about who we are. Language is humanity's most spectacular open source project and the internet is making our language change faster and in more interesting ways than ever before. Internet conversations are structured by the shape of our apps and platforms, from the grammar of status updates to the protocols of comments and replies. Linguistically inventive online communities spread new slang and jargon with dizzying speed. What's more, social media is a vast laboratory of unedited, unfiltered words where we can watch language evolve in real time. Even the most absurd-looking slang has genuine patterns behind it. Internet

linguist Gretchen McCulloch explores the deep forces that shape human language and influence the way we communicate with one another She explains how your first social internet experience influences whether you prefer LOL or lol why sparkly tildes succeeded where centuries of proposals for irony punctuation had failed what emoji have in common with physical gestures and how the artfully disarrayed language of animal memes like lolcats and doggo made them more likely to spread

SAGE Internet Research Methods Jason Hughes, 2012-06-25 Historically social researchers have shown a willingness to exploit new technologies to enhance facilitate and support their various activities However arguably no other technological development has influenced the landscape of social research as rapidly and fundamentally as the Internet This collection avoids both uncritical embrace and wholesale dismissal by considering some of the key literature in the field of Internet research methods Volume One Core Issues Debates and Controversies in Internet Research introduces themes and issues that run across all four volumes such as epistemology ontology and methodology in the online world access social divisions and the digital divide and the ethics of online research Volume Two Taking Research Online Internet Survey and Sampling addresses the range of resources digital archives and Internet based data sources that exist online from relatively straightforward and practical guides to such material through to more polemical pieces which consider problems relating to the use access and analysis of online data and resources Volume Three Taking Research Online Qualitative Approaches considers the broad range of approaches to conducting researching via or in the Internet The focus is on conventional methods that have been taken online and which in doing so have become transformed in scope and character Volume Four Research On and In the Internet Investigating the Online World follows logically from that which precedes it in exploring how social research has been taken online not simply through the deployment of existing methods and techniques via the Internet but in researchers increasing recognition and investigation of the online world as a sphere of human interaction a socio cultural arena to be explored from the desktop as it were
