Afro-Cuban Religious Arts Kristine Juncker, 2014-07-15 This book profiles four generations of women from one Afro Cuban religious family From a plantation in Havana Province in the 1890s to a religious center in Spanish Harlem in the 1960s these women were connected by their prominent roles as leaders in the religions they practiced and the dramatic ritual artwork they created Each woman was a medium in Espiritismo communicating with dead ancestors for guidance or insight and also a santera or priest of Santería who could intervene with the oricha pantheon Kristine Juncker argues that by creating art for more than one religion these women shatter the popular assumption that Afro Caribbean religions are exclusive organizations Most remarkably the portraiture sculptures and photographs in Afro Cuban Religious Arts offer rare glimpses into the rituals and iconography of these religions Santería altars are closely guarded limited to initiates and typically destroyed upon the death of the santera while Espiritismo artifacts are rarely considered valuable enough to pass on The unique and protean cultural legacy detailed here reveals insights into how ritual art became popular imagery sparked a wider dialogue about culture inheritance attracted new practitioners and enabled the movement to explode internationally

Buena parte de la literatura escrita en lenguas españolas en esa época no hubiera existido sin el influjo y el estímulo de las traducciones de obras británicas, francesas, italianas o estadounidenses que Janés hizo accesibles a los lectores en el momento en que eran convenientes y necesarias. El valor fundamental de esa labor es que atenuó y hasta cierto punto contrarrestó la cerril cultura literaria que a partir de 1939 promovió el régimen franquista. Reseñas de Josep Janés fue un fino poeta catalán condición necesaria que lo llevó a convertirse en José Janés uno de los mejores y más completos editores españoles del siglo XX. Lo fue además en los peores años del franquismo para desconcierto y acaso incredulidad de los que siguen creyendo que las cosas sólo pueden ser blancas o negras. Andrés Trapiello Janés personificó la figura de un auténtico editor es decir alguien que configura un catálogo lo vive que deja sus huellas más o menos en filigrana a través de los libros que lo han seducido. Jorge Herralde Josep Janés e Olive fue sin duda alguna el primer editor que en los años oscuros de la posguerra se propuso una empresa cultural abierta a las corrientes más libres y creativas del mundo occidental. J. M. Castellet Janés fue un extraordinario editor tanto en su primera etapa en catalán como en su trayectoria posterior en castellano. Jaume Vallcorba

Devotional Music in the Iberian World, 1450-1800 Tess Knighton, 2017-07-05 From the fifteenth century to the beginning of the nineteenth century devotional music played a fundamental role in the Iberian world. Songs in the vernacular usually referred to by the generic name of villancico but including forms as varied as madrigals, ensaladas, tonos, cantatas or even oratorios were regularly performed at many religious feasts in major churches, royal and private chapels, convents and in monasteries. These compositions appear to have progressively fulfilled or supplemented the role occupied by the Latin motet in other countries and as they were often composed anew for each celebration the surviving sources vastly outnumber those of Latin compositions; they can be counted in tens of thousands. The close relationship with secular genres, both musical, literary and performative, turned these compositions into a major vehicle for dissemination of vernacular styles throughout the Iberian world. This model of musical production was also cultivated in Portugal and rapidly exported to the Spanish and Portuguese colonies in America and Asia. In many cases the villancico repertory represents the oldest surviving source of music produced in these regions, thus affording it a primary role in the construction of national identities. The sixteen essays in this volume explore the development of devotional music in the Iberian world in this period, providing the first broad-based survey of this important genre.

Isbell, 2008-04-06 Perhaps the contributions of South American archaeology to the larger field of world archaeology have been inadequately recognized If so this is probably because there have been relatively few archaeologists working in South America outside of Peru and recent advances in knowledge in other parts of the continent are only beginning to enter larger archaeological discourse Many ideas of and about South American archaeology held by scholars from outside the area are going to change irrevocably with the appearance of the present volume Not only does the Handbook of South American Archaeology HSAA provide immense and broad information about ancient South America the volume also showcases the contributions made by South Americans to social theory Moreover one of the merits of this volume is that about half the authors 30 are South Americans and the bibliographies in their chapters will be especially useful guides to Spanish and Portuguese literature as well as to the latest research It is inevitable that the HSAA will be compared with the multi volume Handbook of South American Indians HSAI with its detailed descriptions of indigenous peoples of South America that was organized and edited by Julian Steward Although there are heroic archaeological essays in the HSAI by the likes of Junius Bird Gordon Willey John Rowe and John Murra Steward states frankly in his introduction to Volume Two that arch ology is included by way of background to the ethnographic chapters Visual Typologies from the Early Modern to the

Contemporary Tara Zanardi, Lynda Klich, 2018-07-04 Visual Typologies from the Early Modern to the Contemporary investigates the pictorial representation of types from the sixteenth to the twenty first century Originating in longstanding visual traditions including street crier prints and costume albums these images share certain conventions as they seek to convey knowledge about different peoples The genre of the type became widespread in the early modern period developing into a global language of identity The chapters explore diverse pictorial representations of types customs and dress in numerous media including paintings prints postcards photographs and garments Together they reveal that the activation of

typological strategies including seriality repetition appropriation and subversion has produced a universal and dynamic pictorial language Typological images highlight the tensions between the local and the international the specific and the communal and similarity and difference inherent in the construction of identity The first full length study to treat these images as a broader genre Visual Typologies gives voice to a marginalized form of representation Together the chapters debunk the classification of such images as unmediated and authentic representations offering fresh methodological frameworks to consider their meanings locally and globally and establishing common ground about the operations of objects that sought to shape embody or challenge individual and collective identities
