Rebel Witch Kelly-Ann Maddox, 2021-04-13 A truly contemporary take on how to be a witch *Rebel Witch* is an antidote to the cookie cutter witchcraft agenda that gives a new perspective on the craft asking each reader to create a powerful personalized practice that taps into the current mood of female empowerment and spiritual rebellion *Rebel Witch* reminds witches of the wondrous opportunity to jump into experimentation and invent something wild and individual a practice shaped by their individual personality and life journey rather than allowing themselves to be spoon fed It challenges witches to design a nurturing practice that is truly theirs There s information about all the elements of the craft from energy raising sacred space creation and receiving signs to casting spells holding rituals scrying potions and much more crucially in each case the topic is discussed from an exciting contemporary perspective So when Kelly Ann talks about sacred texts she stresses that you can choose the texts that resonate with you so why not *Alice in Wonderland* or *Narnia* Maybe you want to move away from the traditional Wheel of the Year and create your own divisions Instead of honouring a traditional deity why not construct your own choosing elements from rock stars movie icons or fictional heroes Or embody magical signs in your clothing and jewellery Creativity and experimentation are encouraged with tips to help the reader to be inventive A curious reader with a desire to create an inspired deeply personal path and free themselves from conformity will finish the book ready to take action and make magick happen

Transhumanism David Livingstone, 2015-09-02 *Transhumanism* is a recent movement that extols man s right to shape his own evolution by maximizing the use of scientific technologies to enhance human physical and intellectual potential While the name is new the idea has long been a popular theme of science fiction featured in such films as 2001 A Space Odyssey *Blade Runner* the

Terminator series and more recently The Matrix Limitless Her and Transcendence However as its adherents hint at in their own publications transhumanism is an occult project rooted in Rosicrucianism and Freemasonry and derived from the Kabbalah which asserts that humanity is evolving intellectually towards a point in time when man will become God Modeled on the medieval legend of the Golem and Frankenstein they believe man will be able to create life itself in the form of living machines or artificial intelligence Spearheaded by the Cybernetics Group the project resulted in both the development of the modern computer and MK Ultra the CIA s mind control program MK Ultra promoted the mind expanding potential of psychedelic drugs to shape the counterculture of the 1960s based on the notion that the shamans of ancient times used psychoactive substances equated with the apple of the Tree of Knowledge And as revealed in the movie Lucy through the use of smart drugs and what transhumanists call mind uploading man will be able to merge with the Internet which is envisioned as the end point of Kabbalistic evolution the formation of a collective consciousness or Global Brain That awaited moment is what Ray Kurzweil a director of engineering at Google refers to as The Singularity By accumulating the total of human knowledge and providing access to every aspect of human activity the Internet will supposedly achieve omniscience becoming the God of occultism or the Masonic All Seeing Eye of the reverse side of the American dollar bill

Modernity and the Construction of Sacred Space Aaron French,Katharina Waldner,2024-07-01 This volume focuses on the connection between modern design and architectural practices and the construction of sacred spaces Not only language and ritual but space place and architecture play a significant role in constructing special or religious spaces However this concept of a constructed sacred space remains undertheorized in religious studies and the history of art and architecture in general This volume therefore revisits the question of a modern sacred space from an interdisciplinary perspective focusing on religion space and architecture during the emergence of the modern period and up until contemporary times Revisiting the ways in which modern architects and artists have endeavored to create sacred spaces and buildings for the modern world will address the underlying questions of how religious ideas especially those related to esotericism and to alternative religiosities have transformed the way sacred spaces are conceptualized today
