The British National Bibliography Arthur James Wells, 2005 The Teaching of Instrumental Music Richard J. Colwell, Michael P. Hewitt, 2017-10-12

The Teaching of Instrumental Music Fifth Edition introduces music education majors to basic instrumental pedagogy for the instruments and ensembles commonly found in the elementary and secondary curricula. It focuses on the core competencies required for teacher certification in instrumental music with the pervasive philosophy to assist teachers as they develop an instrumental music program based on understanding and respecting all types of music. Parts I and II focus on essential issues for a successful instrumental program presenting first the history and foundations followed by effective strategies in administrative tasks and classroom teaching. Parts III, IV, and V are devoted to the skills and techniques of woodwind, brass, and percussion and string instruments. In all, The Teaching of Instrumental Music is the complete reference for the beginning instrumental teacher commonly retained in a student's professional library for its unique and comprehensive coverage.

NEW TO THIS EDITION: Revision and updating of curriculum developments such as coordinating State Department of Education student learning objectives with the recent Every Student Succeeds Act (ESSA). New discussion of the NAfME National Standards as they relate to the teaching of instrumental music. Revamping of rehearsing instrumental ensembles chapters including new or expanded sections on programming, choosing quality music, and applying successful rehearsal techniques. Updates on references plus new discussion questions and websites and internet links. A chapter devoted to classroom guitar. Updates on the use of technology for teaching and learning music. More on healthy performance practice, marching band, and jazz band. Online materials located in the eResources section on the Routledge website.

The Fierce Urgency of Now Daniel Fischlin, Ajay Heble, George Lipsitz, 2013-06-14

The Fierce Urgency of Now links musical improvisation to struggles for social change, focusing on the connections between the improvisation associated with jazz and the dynamics of human rights struggles and discourses. The authors acknowledge that at first glance improvisation and rights seem to belong to incommensurable areas of human endeavor. Improvisation connotes practices that are spontaneous, personal, local, immediate, expressive, ephemeral, and even accidental, while rights refer to formal standards of acceptable human conduct, rules that are permanent, impersonal, universal, abstract, and inflexible. Yet the authors not only suggest that improvisation and rights can be connected, they insist that they must be connected. Improvisation is the creation and development of new, unexpected, and productive cocreative relations among people. It cultivates the capacity to discern elements of possibility, potential, hope, and promise where none are readily apparent. Improvisers work with the tools they have in the arenas that are open to them. Proceeding without a written score or script, they collaborate to envision and enact something new to enrich their experience in the world by acting on it and changing it. By analyzing the dynamics of particular artistic improvisations, mostly by contemporary American jazz musicians, the authors reveal improvisation as a viable and urgently needed model for social change. In the process, they rethink politics, music, and
