People Live Claude Steiner,2007-12-01 A stimulating and thought provoking guide to help you make productive and autonomous choices toward rewriting your life Los Angeles Times We choose a life script at an early age But you can change its course Whether born into wealth or poverty into nurturing families or damaged abusers fostered by strict parents or careless and undisciplined ones each individual still has a spiritual core that exists independent of the environment and is equally crucial to his or her destiny Countering the fundamental principle of psychiatry which asserts that emotional and

mental distress comes from within Claude Steiner believes that people are innately healthy but develop a pattern early in life based upon negative or positive influences of those around them Those influences can rule every detail of our lives until our death Thus children decide however unconsciously whether they will be happy or depressed winners or failures strong or dependent caring or cruel and having decided they spend the rest of their lives making that decision come true For those who choose to live by their negative script the consequences can be disastrous unless they make a conscious decision to change In *Scripts We Live* Steiner tackles the puzzle of human fate He reveals what determines our life scripts and how each person s combination of spirit and circumstance contributes to the final path that life takes And he offers hopeful advice and practical analysis so that we all can rewrite for ourselves more meaningful and fulfilling lives **Top Secret** Crispin

Justice in Young Adult Speculative Fiction Marek C. Oziwicz, 2015-04-17 This book is the first to offer a justice focused cognitive reading of modern YA speculative fiction in its narrative and filmic forms It links the expansion of YA speculative fiction in the 20th century with the emergence of human and civil rights movements with the communitarian revolution in conceptualizations of justice and with spectacular advances in cognitive sciences as applied to the examination of narrative fiction Oziwicz argues that complex ideas such as justice are processed by the human mind as cognitive scripts that scripts when narrated take the form of multiply indexable stories and that YA speculative fiction is currently the largest conceptual testing ground in the forging of justice consciousness for the 21st century world Drawing on recent research in the cognitive and evolutionary sciences Oziwicz explains how poetic retributive restorative environmental social and global types of justice have been represented in narrative fiction from 19th century folk and fairy tales through 21st century fantasy dystopia and science fiction Suggesting that the appeal of these and other nonmimetic genres is largely predicated on the dream of justice Oziwicz theorizes new justice scripts as conceptual tools essential to help humanity survive the qualitative leap toward an environmentally conscious culturally diversified global world This book is an important contribution to studies of children's and YA speculative fiction adding a new perspective to discussions about the educational as well as social potential of

nonmimetic genres It demonstrates that the justice imperative is very much alive in YA speculative fiction creating new visions of justice relevant to contemporary challenges
