**WARNING:** To avoid injury to bystanders, keep them clear of blowing debris.

To avoid hearing damage, wear ear protectors when using the vac for extended hours or when using it in a noisy area.

Your vac features "Full Blowing". It has the capability to blow sawdust and other debris. Follow the steps below to use your vac as a blower.

1. Locate blowing part of your vac.
2. Insert soft end of your hose into blowing port.
3. Turn vac on and you are ready to use your vac as a blower.

**CAUTION:** Always wear safety goggles complying with ANSI Z87.1 before using as a blower.

**NOTE:** Sears recommended accessories are available at Sears retail or catalog stores. The Sears Blower Nozzle Stock No. 9-16933 and Extension Handles Stock No. 9-16964 are recommended for blowing debris.

## filter maintenance

**WARNING:** To avoid injury from accidental starting, unplug power cord before changing or cleaning filter.

**NOTICE:** This filter is made of high quality paper designed to stop very small particles of dust. The filter can be used for wet or dry pick up. Handle the filter carefully when removing to clean or installing it. Creases in the filter pleats may occur from installation but creases will not affect the performance of the filter.

### Removal

To remove the old filter for cleaning or replacement:

1. Remove filter nut from the screw on the filter cage, remove filter plate and lift off filter.

**CAUTION:** To avoid damage to the blower wheel, always reinstall the filter before using the vac for dry material pick-up.

### Installation

(See page 4 "Filter Assembly")

**WARNING:** Do not remove the filter cage. It is there to help prevent your fingers from getting into the blower wheel.

### Cleaning

Your filter should be cleaned often to maintain peak vac performance.

**NOTE:** Be sure to dry the filter before storing or picking up dry debris.

### Dry Filter

1. Some removal of dry debris can be accomplished without removing the filter from the vac by slapping your hand on top of the lid while the vac is off.
2. After filter removal from vac, remove the dry debris by gently tapping the filter against the inside wall of your dust drum and the debris will loosen and fall.

**NOTE:** For best results of cleaning due to accumulated dust, clean the filter in an open area. Cleaning **SHOULD** be done outdoors and not in the living quarters.

3. For thorough cleaning of dry filter with fine dust (no debris) you may run water through it as described under "Wet Filter".

### Wet Filter

After filter is removed a wet filter should be cleaned by running water through it from a hose or spigot. Take care that water pressure from the hose is not strong enough to damage the filter.

**IMPORTANT:** You can quickly dry the filter by running the vac without the hose assembly attached for approximately 10 minutes with filter in place to speed up drying. Check the filter for tears or small holes. Even a small hole can cause a lot of dust to come out of your vac. **Do not use a filter with holes or tears in it. Replace it immediately.**

## wet/dry vac maintenance

To keep your Wet/Dry Vac looking its best, clean the outside with a cloth dampened with warm water and mild soap, to clean the drum:

1. Dump debris out.
2. Wash drum thoroughly.
3. Wipe out with dry cloth.

**IMPORTANT!**—To assure product **SAFETY** and **RELIABILITY**, repairs and adjustment should be performed by Sears Service Centers, always using Sears replacement parts.
