Competition Policy for the New Era Tembinkosi Bonakele, Eleanor M. Fox, Liberty Mncube, 2017 By bringing together analysis from well known scholars from both developed and developing countries the chapters in this book offer a thoughtful precise and relevant analysis of competition policy in BRICS and developing countries **The Oxford Handbook of the Economics of Central Banking** David G. Mayes, Pierre L. Siklos, Jan-Egbert Sturm, 2019 The economic influence of central banks has received ever more attention given their centrality during the financial crises that led to the Great Recession strains in the European Union and the challenges to the Euro The Oxford Handbook of the Economics of Central Banking reflects the state of the art in the theory and practice and covers a wide range of topics that will provide insight to students scholars and practitioners As an up to date reference of the current and potential challenges faced by central banks in the conduct of monetary policy and in the search for the maintenance of financial system stability this Oxford Handbook covers a wide range of essential issues The first section provides insights into central bank governance the differing degrees of central bank independence and the internal dynamics of their decision making The next section focuses on questions of whether central banks can ameliorate fiscal burdens various strategies to affect monetary policy and how the global financial crisis affected the relationship between the traditional focus on inflation targeting and unconventional policy instruments such as quantitative easing QE foreign exchange market interventions negative interest rates and forward guidance The next two sections turn to central bank communications and management of expectations and then mechanisms of policy transmission The fifth part explores the challenges of recent developments in the economy and debates about the roles central banks should play focusing on micro and macro prudential arguments The implications of recent developments for policy modeling are covered in the last section The breadth and depth enhances understanding of the challenges and opportunities facing central banks *An Improved Weighted Correlation Coefficient Based on Integrated Weight for Interval Neutrosophic Sets and its Application in Multicriteria Decision-making Problems* Hong-yu Zhang, Pu Ji, Jian-qiang Wang, This paper presents a new correlation coefficient measure which satisfies the requirement of this measure equaling one if and only if two interval neutrosophic sets INSs are the same *Integrated Marketing Communications in Football* Argyro Elisavet Manoli, 2022-07-01 This book takes an important step forward in showing how Integrated Marketing Communications IMC have been applied within the English Premier League EPL arguably the most commercialised and watched sport league in the world and how it can and should be utilised in the context of other sports properties Drawing on cutting edge empirical research the book offers a detailed view into the marketing communications practices of EPL clubs such as brand management and communications alignment the football clubs practitioners perspectives of IMC and the integration processes taking place within the clubs It examines the key marketing communications practices that strategic IMC entails including marketing strategies and goals cross functional communication external communication management

and brand management and helps researchers and practitioners to understand how IMC can have the maximum positive impact on the brand of an organisation by managing their content channels stakeholders and results This book is fascinating reading for any researcher advanced student or practitioner with an interest in sport management the business of football sport marketing or innovative approaches to marketing and business communications in other commercial spheres

World Development Report 2016 World Bank Group,2016-01-14 Digital technologies are spreading rapidly but digital dividends the broader benefits of faster growth more jobs and better services are not If more than 40 percent of adults in East Africa pay their utility bills using a mobile phone why can t others around the world do the same If 8 million entrepreneurs in China one third of them women can use an e commerce platform to export goods to 120 countries why can t entrepreneurs elsewhere achieve the same global reach And if India can provide unique digital identification to 1 billion people in five years and thereby reduce corruption by billions of dollars why can t other countries replicate its success Indeed what s holding back countries from realizing the profound and transformational effects that digital technologies are supposed to deliver Two main reasons First nearly 60 percent of the world s population are still offline and can t participate in the digital economy in any meaningful way Second and more important the benefits of digital technologies can be offset by growing risks Startups can disrupt incumbents but not when vested interests and regulatory uncertainty obstruct competition and the entry of new firms Employment opportunities may be greater but not when the labor market is polarized The internet can be a platform for universal empowerment but not when it becomes a tool for state control and elite capture The World Development Report 2016 shows that while the digital revolution has forged ahead its analog complements the regulations that promote entry and competition the skills that enable workers to access and then leverage the new economy and the institutions that are accountable to citizens have not kept pace And when these analog complements to digital investments are absent the development impact can be disappointing What then should countries do They should formulate digital development strategies that are much broader than current information and communication technology ICT strategies They should create a policy and institutional environment for technology that fosters the greatest benefits In short they need to build a strong analog foundation to deliver digital dividends to everyone everywhere Sustainable Production Through Advanced Manufacturing, Intelligent Automation and Work Integrated Learning J. Reporting and Performance Measurement Systems Bogusława Bek-Gaik, Anna Surowiec, 2023-11-15 Despite the development of innovative approaches to strengthen accountability and the quality of integrated reporting disclosures stakeholders are increasingly demanding more objective and unambiguous data Therefore the use of non financial performance measures that assist in collecting comparable information and the verification thereof by independent experts can help to establish trust in a firm s communication with its stakeholders Certainly non financial information should complement mandatory financial reporting to go beyond traditional financial ratios and link them to non financial risks and achievements This book examines the possibility of using information provided by performance measurement systems in the process of preparing integrated reports It presents an overview of the integrated report from the supply side which undoubtedly affects the quality and usefulness of the information presented as well as enhances the manner in which the data and analyses are suitable for independent assessment The book looks at the ways in which various groups of stakeholders management those who prepare non financial reports investors influence the scope of the key performance indicators KPIs used for integrated reporting purposes and what categories of KPIs are the most significant Further it analyzes which performance measurement systems provide information for the different components of integrated reports The book is interdisciplinary its thematic scope is at the intersection of accounting business reporting and business management and thus it provides an important source of knowledge for students scholars and researchers of economics finance and management It will also be a valuable guide for those preparing integrated reports or other forms of non

financial reporting

Landslide Databases as Tools for Integrated Assessment of Landslide Risk Martin

Klose, 2015-06-24 This doctoral thesis presents a novel approach to landslide risk assessment that explores the various dimensions of landslide risk in an integrated perspective The research approach introduced here is tailored for use with landslide databases and Geographic Information Systems GIS A landslide susceptibility model is at the heart of this new approach enabling to identify and delineate areas at risk of landslides and to assess infrastructure exposure Landslide risk is a pressing societal issue that is still poorly understood Temporal landslide hazard is derived from landslide frequency statistics and a hydrological simulation approach to estimate triggering thresholds These methods are integrated into a powerful toolset for cost modeling that uses historical data to compile model and extrapolate damage costs on different spatial scales over time The combination of this toolset with techniques to analyze fiscal cost impacts supports integrated risk assessment by quantifying the economic relevance of landslide losses Save and Grow in practice: maize, rice, wheat

Food and Agriculture Organization of the United Nations, 2018-06-21 FAO's best selling 2011 publication Save and Grow proposed a new paradigm of agriculture one that is both highly productive and environmentally sustainable This new book looks at the application of Save and Grow practices and technologies to production of the world's key food security crops maize rice and wheat With examples drawn from developing countries worldwide it shows how eco friendly farming systems are helping smallholder producers to boost cereal yields improve their incomes and livelihoods conserve natural resources reduce negative impacts on the environment and build resilience to climate change The book will be a valuable reference for policymakers and development practitioners guiding the transition to sustainable food and agriculture **Neoliberalism**

2.0: Regulating and Financing Globalizing Markets L. Nijs, 2016-01-26 In today's increasingly globalized environment many economic fundamentals need to be reconsidered in order to regain stability in the global marketplace One such consideration is the failing dynamics of the international tax infrastructure Neoliberalism 2.0 brings a 21st century assessment of the Pigovian taxes considering a completely new calibration of the international tax systems inspired by the historically developed Pigovian tax model The book considers the impact neoliberalism had and will have on regulatory infrastructure democracy in an era of globalization and reduced legitimation of the national state The Pigovian model brings home the often forgotten relationship between taxation as a part of the regulatory sphere macro economics and the political philosophical context in which law and economics emerge The model also takes into account the phenomena of globalization and financialization and is tested using the financial sector as an example This book addresses the many challenges a Pigovian shift would imply for the sovereign and its national economies Neoliberalism 2.0 demonstrates the ability to design a paradigm changing alternative to the current tax infrastructure while taking into account a low economic growth environment of the future the implications of globalization and the changing relationship between citizens and their state

Integrated Approaches to STEM Education Judy Anderson, Yeping Li, 2020-12-23 This book provides a platform for

international scholars to share evidence for effective practices in integrated STEM education and contributes to the theoretical and practical knowledge gained from the diversity of approaches Many publications on STEM education focus on one or two of the separate STEM disciplines without considering the potential for delivering STEM curriculum as an integrated approach This publication analyzes the efficacy of an integrated STEM curriculum and instruction providing evidence to examine and support various integrations The volume focuses on the problems seen by academics working in the fields of science technology engineering and mathematics STEM and provides valuable high quality research outcomes and a set of valued practices which have demonstrated their use and viability to improve the quality of integrated STEM education

Cultural Tourism Hilary du Cros,Bob McKercher,2014-12-05 Cultural Tourism remains the only book to bridge the gap between cultural tourism and cultural and heritage management The first edition illustrated how heritage and tourism goals can be integrated in a management and marketing framework to produce sustainable cultural tourism The current edition takes this further to base the discussion of cultural tourism in the theory and practice of cultural and heritage management CM and CHM under the understanding that for tourism to thrive a balanced approach to the resource base it uses must be maintained An umbrella approach to cultural tourism represents a unique feature of the book proposing solutions to achieve an optimal outcome for all sectors Reflecting the many important developments in the field this new edition has been completely revised and updated in the following ways New sections on tangible and intangible cultural heritage and world heritage sites Expanded material on cultural tourism product development the cultural tourism market and consumer behaviour planning and delivery of exceptional experiences New case studies throughout drawn from cultural attractions in developing countries such as Southeast Asia China South Africa and the Pacific as well as from the developed world particularly the United States Britain Japan Singapore Australia and Canada Written by experts in both tourism and cultural heritage management this book will enable professionals and students to gain a better understanding of their own and each other's roles in achieving sustainable cultural tourism It provides a blueprint for producing top quality long term cultural tourism products
