

Introduction

"First aid is the provision of initial care for an illness or injury. It is usually performed by a lay person to a sick or injured patient until definitive medical treatment can be accessed. Certain self-limiting illnesses or minor injuries may not require further medical care past the first aid intervention. It generally consists of a series of simple and, in some cases, potentially life-saving techniques that an individual can be trained to perform with minimal equipment."

What is the aim of First Aid?

The key aims of [first aid](#) can be summarized in three key points

Preserve life is the overriding aim of all medical care, including first aid, is to save lives

Prevent further harm also sometimes called preventing the condition worsening, this covers both external factors, such as moving a patient away from a cause of harm, and applying first aid techniques to prevent worsening of the condition, such as applying pressure to stop a bleed becoming dangerous.

Introduction On Pocket Guide On First Aid

Marilynn Jackson, Lee Jackson
