It is recommended that the user and the supplier reach an agreement on the basis of the EN 60204-1, Annex B.

In a symmetrical three-phase supply the phase displacement and voltages are equal for all phases.

The machine may only be operated from an earthed TN or TT three-phase supply.

Connection to an IT supply is not permitted without taking further measures (earth leak detection, etc.).

This machine is designed for the operation in an industrial environment with proprietary supply network separated from the public supply by a transformer or generator.
