**Modern Mathematics, Briefer Course** Raleigh Schorling, John Roscoe Clark, Harold Ordway Rugg, 1924 **The Place of Science in Modern Civilization** Thorstein Veblen, 2007-03-01 Western culture according to Veblen is unique because of its comprehension of science Above all else he identifies this as the defining characteristic of Western Christian society because all other social forces gather around it But far from proclaiming this cult of science as a great good Veblen instead examines how this peculiarity came to be Why science What will become of a society so engrossed with facts that it neglects other aspects of life like art Readers may find themselves amazed at the degree to which the scientific point of view has colored Western life while students of sociology and anthropology will be fascinated by this reflexive look at scientific culture by a man of science American economist and sociologist THORSTEIN BUNDE VEBLEN 1857 1929 was educated at Carleton College Johns Hopkins University and Yale University He coined the phrase conspicuous consumption Among his most famous works are The Theory of the Leisure Class 1899 The Theory of Business Enterprise 1904 and Imperial Germany and the Industrial Revolution 1915 **The Place of Science in Modern Civilisation and Other Essays** Thorstein Veblen, 1919 **The Seattle Times School Guide** Katherine Long, 2000 **TV Guide**, 1960 **Making a Grade** James Elwick, 2021-03-01 Starting in the 1850s achievement tests became standardized in the British Isles and were administered on an industrial scale By the end of the century more than two million people had written mass exams particularly in science

technology and mathematics Some candidates responded to this standardization by cramming or cheating others embraced the hope that such tests rewarded not only knowledge but also merit Written with humour Making a Grade looks at how standardized testing practices quietly appeared and then spread worldwide This book situates mass exams marks and credentials in an emerging paper based meritocracy arguing that such exams often first appeared as cameras to neutrally record achievement and then became engines to change education as people tailored their behaviour to fit these tests Taking the perspectives of both examiners and examinees Making a Grade claims that our own culture s desire for accountability through objective testing has a long history      New York Magazine ,1976-11-01 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea      ERIC Educational Documents Index, 1966-69: Minor descriptors and author index ,1970
