

- A2.S.9** Differentiate between situations requiring permutations and those requiring combinations
A2.S.10 Calculate the number of possible permutations (${}_nP_r$) of n items taken r at a time
A2.S.11 Calculate the number of possible combinations (${}_nC_r$) of n items taken r at a time
A2.S.12 Use permutations, combinations, and the Fundamental Principle of Counting to determine the number of elements in a sample space and a specific subset (event)

Permutations

A **permutation** is an arrangement of items in a specific order (that is permutations are used when the order of selection is important).

The notation for a permutation of n items taken r at a time is ${}_nP_r$.

$${}_nP_r = n \cdot (n-1) \cdot (n-2) \cdot (n-3) \cdots (n-r+1)$$

Ex: In how many different orders can the 8 students competing in the 200-meter race cross the finish line?

Solution: Obviously, with a race, order matters.

We want to find the order of all 8 students finishes, so in our permutation, $n = 8$, $r = 8$.

$${}_8P_8 = 8 \cdot 7 \cdot 6 \cdot 5 \cdot 4 \cdot 3 \cdot 2 \cdot 1 = 40,320$$

You can also use $8!$ for this.

Ex: How many different ways can first, second, and third place be decided among the twelve horses running in the Kentucky Derby?

Solution: First place can be won by 12 horses, second by 11, and third by 10.

$${}_{12}P_3 = 12 \cdot 11 \cdot 10 = 1,320$$

1. A restaurant critic decides to sample 6 of the 9 desserts on the menu. In how many different orders can this be accomplished?

- (1) 720
(2) 60,480

- (3) 241,920
(4) 362,880

Ex: How many different arrangements of the letters in the word TOMORROW can be made?

Solution: The word has 8 letters, but there are multiple O's and R's. We must eliminate the extra arrangements of O's and R's. To do this, we use the formula $\frac{n!}{r!}$ where n is the number of things taken n at a time where r are identical. In this

example there are 3 O's and 2 R's that are repeated, therefore we must divide by both $3!$ and $2!$.

$$\frac{8!}{2!3!} = \frac{8 \cdot 7 \cdot 6 \cdot 5 \cdot 4 \cdot 3 \cdot 2 \cdot 1}{3 \cdot 2 \cdot 1 \cdot 2 \cdot 1} = 3,360$$

2. How many different 5-letter arrangements can be made from the letters of the word TOOTH?

- (1) 12
(2) 24

- (3) 30
(4) 60

Ex: Given the set of numbers {1, 4, 5, 7, 8}, if each digit can be used only once, how many different

a. four-digit numbers can be formed

{120}

b. four-digit odd numbers can be formed

_____._____._____._____

{72}

c. three-digit numbers larger than 700 can be formed

_____._____._____

{24}

Lesson 1 permutations And Combinations Answers Introduction

In today's digital age, the availability of Lesson 1 permutations And Combinations Answers books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Lesson 1 permutations And Combinations Answers books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Lesson 1 permutations And Combinations Answers books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Lesson 1 permutations And Combinations Answers versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Lesson 1 permutations And Combinations Answers books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Lesson 1 permutations And Combinations Answers books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000

free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Lesson 1 permutations And Combinations Answers books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Lesson 1 permutations And Combinations Answers books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Lesson 1 permutations And Combinations Answers books and manuals for download and embark on your journey of knowledge?

FAQs About Lesson 1 permutations And Combinations Answers Books

1. Where can I buy Lesson 1 permutations And Combinations Answers books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
