A. Brown, 2010-12 This book of fiction raises one likely possibility for the immediate future given recent history It also considers the idea that at some point everyone wonders what is the meaning of all this stuff surrounding us the earth the solar system the universe and time Is it all meant just for Homo sapiens This author explores the best answer that science and or faith can deliver at this moment It is the answer that you most likely would have arrived at if you had decided to become a scientist as an occupation and a novelist philosopher as a preoccupation It starts with what we know about this planet its flora and fauna including that special species Homo sapiens where the metaphor of the vanity of Don Quixote versus the humility and reality of Sancho Panza is used In this context we can examine ways to enjoy life given a healthy respect for our limitations It helps explain our cultural successes failures and helps us come to terms with what we are It is a thriller novel designed to make the philosophy palatable As such it should be entertaining and intellectually satisfying This 2nd edition is condensed for easy reading In a word this book is provocative I think it s ideal reading for book clubs because it forces you to think about man s role in the universe s and so much of the middle portion is an ideal source for discussion topics If you like science read it If you dislike science read it twice N Johnson Seattle WA USA

The author insightfully contemplates the essential meaning of human life from a scientist's point of view while rehearsing the progress of mankind through the historical record by telling the life story of one individual. He points to an inevitable conclusion that is eerily contemporary. Rev Ken Snyder Maui Brown cooks up a scenario which I first thought as too fantastic but when I reflect on the present state of the world and the possible consequences of the proliferation of nuclear arms the scenario becomes believable and scary. I could relate to much of the story. I will be more vigilant on my next hike in the Cascades. A very readable yarn. Ramesh Gangolli Seattle WA

Modelling Exciting Writing Adam Bushnell, Rob Smith, David Waugh, 2018-10-30. In order to teach writing effectively, teachers must be able to model writing effectively to children. The Primary National Curriculum sets challenging expectations for the teaching of writing. Children must master the process of composition, redrafting, editing and writing final pieces. Increased emphasis on spelling, punctuation and grammar may leave some teachers and trainee teachers lacking ideas for developing children's writing beyond transcription and into composition. It is important that they are able to demonstrate their knowledge and understanding as well as the practical applications of both transcriptional and compositional aspects of writing.
