English A Paper Cxc 2009:

Transforming Learning Stacey Blackman, Babalola J. Ogunkola, 2016-08-17 *Transforming Learning International Perspectives* is a must read for all educators who want to impact the lives of the students who attend their classrooms. It presents indigenous frameworks applied to subjects in education, the humanities and sciences that transcend the boundaries of culture and inform critical praxis in teacher education. **EJEL Volume 10 Issue 1**, *Environmental and Sustainability Education (ESE) in the English-Speaking Caribbean* Therese Ferguson, Sharon Bramwell-Lalor, 2024-12-09 This book offers readers a diversity of perspectives, experiences and practical examples from various facets of Environmental and Sustainability Education (ESE) that can propel practice further research and inform decision making in the region thus making for more cogent and effective ESE. The Caribbean region is comprised of what is said to be the largest number of Small Island Developing States (SIDS) together with the non island nations of Belize, Guyana and Suriname. Although diverse with respect to governance, size, topography and income, the Caribbean region has a common set of geographic and socio-economic characteristics that make it vulnerable to environmental hazards, economic challenges and social instability. Further to these particular vulnerabilities are various phenomena that pose critical sustainability challenges, two of which are climate change and crime and violence. Consequently, responsive and relevant ESE is needed to address these issues through knowledge enhancement, attitudinal change, skills development and behaviour change. As we seek solutions, this text brings together various empirical and theoretical contributions focused primarily on the English speaking Caribbean region that explore a number of areas such as ESE pedagogy, teacher education, values education and progress evaluation. This volume will be a key resource for educators, policymakers, scholars and advanced students of ESE as well as those interested in protecting our planet. It was originally published as a special issue of *Environmental Education Research*. *Handbook of Research on Cross-Cultural Approaches to Language and Literacy Development* Smith, Patriann, Kumi-Yeboah, Alex, 2015-08-04 With rapid technological and cultural advancements, the 21st century has witnessed the wide scale development of transnationalist economies which has led to the concurrent evolution of language and literacy studies, expanding cross cultural approaches to literacy and communication. Current language education applies new technologies and multiple modes of text to a diverse range of cultural contexts, enhancing the classroom experience for multi-lingual learners. The *Handbook of Research on Cross Cultural Approaches to Language and Literacy Development* provides an authoritative exploration of cross cultural approaches to language learning through extensive research that illuminates the theoretical frameworks behind multicultural pedagogy and its myriad applications for a globalized society. With its comprehensive coverage of transnational case studies, trends in literacy teaching and emerging instructive technologies, this handbook is an essential reference source for K-20 educators, administrators in school districts, English as a Second Language (ESL) teachers and researchers in the field of Second Language Acquisition (SLA). This diverse publication features comprehensive and accessible articles on the latest
