

Assessment

Chapter Test B

Answer Key

MATCHING

1. c
2. b
3. d
4. a
5. c

MULTIPLE CHOICE

6. c
7. a
8. d
9. c
10. b

COMPLETION

11. resistance
12. bacteria
13. phytoplankton (or protists or algae)
14. angiosperms (or plants)
15. gymnosperms

SHORT ANSWER

16. An apple tree depends on bees to pollinate its flowers. The flowers must be pollinated for the flowers to make seeds and fruit. The bees depend on the nectar for food.
17. Insects have a waterproof external skeleton, they move quickly, and they reproduce quickly. They also are small, can hide easily, and require little food. Many insects can fly.
18. Answers may vary. Sample answer: A hummingbird has wings that allow it to hover near a flower. It has a long beak and tongue that allow it to reach into a flower to get nectar for food.
19. A population is made up of all the members of one species that live in the same place at the same time. A community is made up of all the populations living in the same place at the same time. A population is made up of one species, while a community is made up of many species. All the squirrels living in a forest are a population. The community is made up of all the squirrels, plants, other animals, and other organisms living in the forest.
20. Answers may vary. Sample answer: Birds with more curved beaks were better able to extract snails from their shells, and this ability helped them produce more

offspring than their straighter-beaked relatives. These off-spring inherited the curved beaks of their parents, and over time the entire species evolved curved beaks.

21. The snails would die out or move to another habitat without their habitat, and the birds would probably not survive in the area because they wouldn't have a food source.
22. energy, mineral nutrients, water, oxygen, and living organisms
23. Domain archaea: unicellular, lack nuclei, usually have cell walls, found in harsh environments; Domain bacteria: unicellular, lack nuclei, usually have cell walls, incredibly common; fungi: some unicellular but most multicellular, have cell nuclei, have cell walls, have no chlorophyll; protists: most unicellular but some unicellular, have nuclei, no cell walls, some can make their own food; plants: multicellular, have nuclei, have cell walls, make their own food; animals: multicellular, no cell walls, have nuclei, ingest their food
24. Most of the other organisms would also die because phytoplankton are protists that use the sun's energy to make food. Phytoplankton are the initial source of food in most ocean ecosystems, so if they died, other organisms would lose their food source.

PROBLEM SOLVING

25. Answers may vary. Possible answer: Insects are a part of an ecosystem even if that ecosystem contains someone's home, yard, and garden. As a part of an ecosystem, insects can be linked to other organisms in a complex web that we might not be aware of. By removing insects, we may be harming other parts of the ecosystem. Also, insecticides kill beneficial insects as well as insect pests and can encourage the selection of insect pests that are resistant to insecticides.

Holt Mcdougal Environmental Science Chapter Test B

Sabine Zange

Holt Mcdougal Environmental Science Chapter Test B:

Whispering the Strategies of Language: An Mental Quest through **Holt Mcdougal Environmental Science Chapter Test B**

In a digitally-driven world wherever monitors reign great and quick connection drowns out the subtleties of language, the profound secrets and psychological nuances hidden within phrases usually move unheard. Yet, located within the pages of **Holt Mcdougal Environmental Science Chapter Test B** a charming fictional treasure pulsating with raw feelings, lies an extraordinary journey waiting to be undertaken. Published by a talented wordsmith, this marvelous opus attracts visitors on an introspective trip, softly unraveling the veiled truths and profound influence resonating within the very cloth of each and every word. Within the psychological depths of the emotional evaluation, we can embark upon a honest exploration of the book is core styles, dissect their charming writing design, and fail to the effective resonance it evokes heavy within the recesses of readers hearts.
