Diplomatic Conference narrates briefly how the Internet Treaties came into being describes all the developments germane to the Internet Treaties over the last twenty five years and examines at length how well these treaties withstood the creative gales of destruction having a bearing on the production distribution and consumption of digital content The retrospective consists of two parts The first part looks back at the conference its course of events its negotiation dynamics the doctrinal differences and sharply conflicting economic interests underlying the stands taken by the main parties to negotiations and the national and transnational interest groups that sought to influence the negotiation process and outcomes The second part reflects on the outcomes and assesses with the wisdom of hindsight how appropriate the outcomes were and how well they withstood the passage of time This second aspect is the main focus of this book The retrospective is limited to the digital agenda of DipCon but for the digital agenda the DipCon is convened so soon and the Internet Treaties concluded so fast The book provides rich material for researchers studying the WIPO journey and also the practitioners by throwing light on discussions that led to a treaty that has in general withstood the trials of time
