

Hunter

Universal 3 Speed Ceiling Fan Remote

Model 99122, 99123

If you are installing multiple remote-controlled fans on the same circuit breaker,

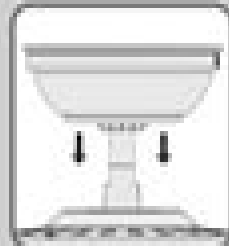

you may need to perform a few extra steps to prevent interference or faulty operation of your remote controls.

Go to www.hunterfan.com/RAC and click "How do I properly install multiple remote-controlled fans?" for more information.

Installation

Before installing the Universal 3-Speed Ceiling Fan Remote, set the fan speed to OFF and the light to the 0 position to prevent interference.

Remove the cap(s) of your ceiling hole to install a receiver in the fan canopy channel. After wiring is complete, if any fan speed(s) or light setting are desired, turn on power a slight delay for clearance. Remove the cap(s) and close the hole around the receiver in the ceiling hole for the fan, leaving the grounding wire connected.

OR

OR

OR

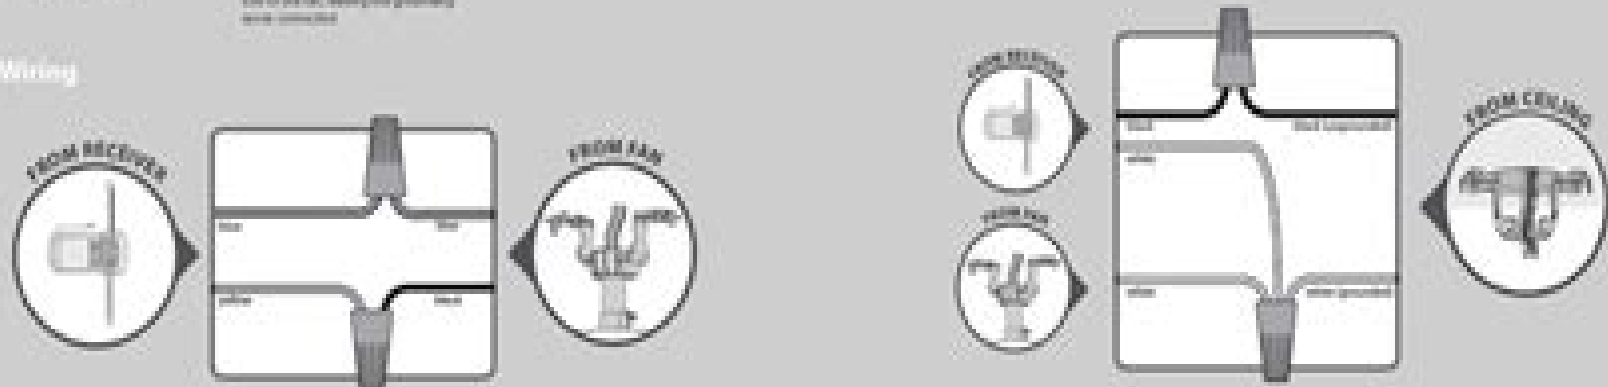

These diagrams illustrate how to install the receiver into the canopy of the ceiling fan. Always refer to the fan's instructions for details.

Choose the hanging system that most closely resembles the one used by your fan and install the receiver as shown and wire as directed.

Note: Green fan speed from universal remote control is used for speed control only. Do not use any other wiring or a minimum of 2" spacing. Double the fan speed (2) if there is no wiring in the ceiling. The receiver and fan must remain properly grounded.

The receiver installation must stay in a distance of at least 1/2" from the ceiling and 1/2" from the fan.

Wiring

CONNECT WIRES FROM RECEIVER TO FAN: Using the wiring as directed, connect the load wire from the receiver to the fan speed(s) control wire with white steps and from the fan. Connect the green wire from the receiver to the black ground wire for fan.

If you're installing multiple fans on the same circuit breaker, please contact a qualified electrician.

CONNECT WIRES FROM RECEIVER AND FAN TO WIRING FROM OUTLET BOX: Using the wiring as directed, connect the fan to wire connected from the ceiling box to the fan. Connect the receiver wire from the ceiling box to the receiver wire from the fan. Connect the green wire from the fan to the green wire from the fan.

OFFER ALL WIRES AND CONNECTORS and connect with wire according to electrical code.
