ECSCW 2009: Proceedings of the 11th European Conference on Computer Supported Cooperative Work, 7-11 September 2009, Vienna, Austria Ina Wagner,Hilda Tellioglu,Ellen Balka,Carla Simone,Luigina Ciolfi,2009-08-19 This volume presents the proceedings of ECSCW 09 the 11th European Conference on Computer Supported Cooperative Work Each conference offers an occasion to critically review our research field which has been multidisciplinary and committed to high scientific standards both theoretical and methodological from its beginning These proceedings represent discussions and contributions to ongoing challenges One challenge comes from emerging new technologies connected to social computing gaming as well as applications supporting citizen participation in their communities As boundaries between home and work erode with the increased movement of work into home environments and new applications further blur the once separate conceptions of work and leisure our intellectual community faces challenges in the ways we think about and study work Other challenges result from transformations of the world of work itself and the role of IT in these They have been taken up in in depth studies of design practice software development and manufacturing as well as in the growing body of research on health care contexts and applications Finally there is the question of what is the European perspective in our community and whether it is worthwhile to anchor our research more firmly in such a perspective Of high relevance to our field is the strong grounding of technology development in an understanding of human activity The nineteen full papers four short papers and one discussion paper selected for this conference deal with and reflect on some of these challenges thus representing the lively debate currently ongoing in our field of research Serendipity Science Samantha Copeland,Wendy Ross,Martin Sand,2023-07-14 This volume brings together for the first time the diverse threads within the growing field of serendipity research to reflect both on the origins of this emerging field within different disciplines as well as its increasing influence as its own field with foundational texts and emerging practices The phenomenon of serendipity has been described in many ways since Horace Walpole initially coined the term in 1754 to categorize those discoveries that happen by both accidents and sagacity This book offers a sampling of perspectives from experts in serendipity research from organizational

studies management theory information science and library studies psychology literature computer science social science ethics and the history and philosophy of science Considerations about the importance and role of serendipity are being raised now across science both empirical and theoretical as well as practice from art and innovation to leadership and governance with ever more eyes looking closer at its significance in human history and the likelihood it will play a key while unpredictable role in forming our future Serendipity Science represents an emerging and also important and potentially necessary field of study if we are to deal well as a society with our complex times and uncertain future Popular Science, 1973-08 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Bulletin of the Public Affairs Information Service, a Cooperative Clearing House of Public Affairs Information** Public Affairs Information Service, 1924 Readers' Guide to Periodical Literature Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1919
