Solutions Manual for The Dynamics of Heat Hans U. Fuchs, 2012-12-06

This manual contains detailed solutions of slightly more than half of the end of chapter problems in *The Dynamics of Heat*. The numbers of the problems included here are listed on the following page. A friend who knows me well noticed that I have included only those problems which I could actually solve myself. Also to make things more interesting I have built random errors into the solutions. If you find any of them please let me know. Also if you have different ways of solving a problem I would be happy to hear from you. Any feedback also on the book in general would be greatly appreciated. There is an Errata sheet for the first printing of *The Dynamics of Heat*. By the time you read this it should be available on the Internet for you to download. A reference to the URL of the sheet can be found in the announcement of my book on Springer's WWW pages www.springer-ny.com.
