- * There is direct dependence of human beings on nature for resources which sustained them.
- * The physical environment for such societies became the "Mother Nature".
- * This type of interaction between primitive human society and strong forces of nature was termed as **Environmental determinism**.

- * Nature provides opportunities and human being make use of these and slowly nature gets humanised

3. NEO DETERMINISM/STOP AND GO DETERMINISM

- * Developed by **Griffith Taylor**.
- * It is a middle path concept between environmental determinism and possibilism.
- * **As per this concept, neither there is a situation of absolute necessity nor is there a condition of absolute freedom.**
- * It means that possibilities can be created within the limits which do not harm the environment and there is no free run without accidents.
