[jQuery for Beginners](#) iCode Academy, 2017-05-25 Are You Ready To Learn jQuery Easily This book contains proven steps and strategies on how to create programs using jQuery It tells you about the fundamentals of the programming language as well as the things you have to do in order to come up with working programs It explains to you what jQuery is all about why choosing it over other programming languages is worth it and what you have to do to get better at writing programs This book also contains sample codes to help you gain a better understanding of the concepts of jQuery Then again before you begin with jQuery it is crucial for you to learn about JavaScript first If you are already familiar with the programming language you may feel like ignoring it and moving on towards jQuery quickly But you also have to keep in mind that this can be a risky move because you have to be adept at using JavaScript before you can successfully write codes using jQuery In fact a lot of Web developers make the mistake of skipping JavaScript and moving on to jQuery immediately While they may have experienced a smooth flowing run at first they eventually find themselves stuck in the middle At this point they no longer know what to do because they did not spend time learning about JavaScript first If you do not want to get stuck while in the middle of programming using jQuery see to it that you pay attention to JavaScript and learn all about it first In the most basic sense writing codes using jQuery is practically writing codes using JavaScript except that you use the library of jQuery If you already have a Web page but you want to include some JavaScript codes in it so that it would run better you can either add codes inline within your script tag or you can make an external file in JavaScript using the js extension in your file name before loading it through your script tag With regard to the syntax of JavaScript it is pretty clear and basic Then again there are still some subtleties that you must expect As you go on writing codes and programs using this programming language you will encounter these subtleties Oftentimes there are a variety of ways on how you can do and achieve things However the community still insists on certain conventions The use of semicolons is an example of this In JavaScript the use of semicolon at the last part of your line is usually optional Nevertheless you have to add a semicolon at the last part of your line at all times if you wish to follow the convention This is especially the case if you're working with a team or if other people will be taking a close look at your code jQuery is such an amazing programming language It can certainly help improve your website as well as enable you to create programs for a variety of purposes Here's What You'll Learn From This jQuery For Beginners Book Introduction Chapter 1 Introduction to jQuery Chapter 2 Getting Started Chapter 3 Accessing the Elements Chapter 4 HTML Elements Positions and Attributes

Chapter 5 Events Management Chapter 6 Showing and Hiding Web Page Elements Chapter 7 Fading and Sliding Web Page Elements Chapter 8 Web Page Element Animation What Are You Waiting For Start Coding jQuery Right Now [JavaScript & jQuery: The Missing Manual](#) David Sawyer McFarland,2014-09-18 JavaScript lets you supercharge your HTML with animation interactivity and visual effects but many web designers find the language hard to learn This easy to read guide not only covers JavaScript basics but also shows you how to save time and effort with the jQuery and jQuery UI libraries of prewritten JavaScript code You ll build web pages that feel and act like desktop programs with little or no programming The important stuff you need to know Pull back the curtain on JavaScript Learn how to build a basic program with this language Get up to speed on jQuery Quickly assemble JavaScript programs that work well on multiple web browsers Transform your user interface Learn jQuery UI the JavaScript library for interface features like design themes and controls Make your pages interactive Create JavaScript events that react to visitor actions Use animations and effects Build drop down navigation menus pop ups automated slideshows and more Collect data with web forms Create easy to use forms that ensure more accurate visitor responses Practice with living examples Get step by step tutorials for web projects you can build yourself
