

## ACKNOWLEDGMENTS

My deep gratitude goes to those who offered support and encouragement on the project, particularly my dear wife Elspeth, my three children Fiona, Simon and Peter, and my son-in-law Mark.

I also wish to thank, most especially, the Right Reverend Pedro Oliveira, and the Very Reverend Dr Ronald A Rivett, the latter a former Vicar-General of the Liberal Catholic Church in Australia, who have believed in and inspired me, and who have shared with me so much of their wisdom and knowledge over the years.

Very special and heartfelt thanks are also due to the Reverend Dr Arthur F Mowle, Director, Liberal Catholic Institute of Studies, for suggesting the title and topic areas of this thesis as well as the wording of the various chapter headings, and for furnishing invaluable reading material. I will always be grateful for his encouragement, kind words, wise counsel and advice during the preparation of this thesis and otherwise. I also wish to thank most sincerely the Right Reverend Graham Preston, Regionary Bishop of the Liberal Catholic Church in the Province of Australasia (including Indonesia) for his encouragement, support and wise counsel.

I have also learned much from my many friends at the Liberal Catholic Church of Saint Francis, Gordon NSW in the years since I first started attending services there on a regular basis in 1985.

Thanks are also due to Melinda Aitkenhead for her IT technical assistance.

This thesis is dedicated to my late parents, Harry and Phyl, who believed in me and taught me to be honest and always to strive for the best. From them I learned that there can be true religion, faith and objective moral values without dogmatism, fundamentalism, cant and hypocrisy.

Fischer, David Schimmel, Leslie Stellman, 2007 This text provides a question and answer format which addresses every aspect of school law from a teacher's and school administrator's perspective. Clearly written and useful to both teachers and school administrators, this text focuses on legal issues reflecting current trends that are important to educators in the 21st century. The authors designed the text for school professionals seeking an easy-to-use reference on every important area of school law including student and employee rights, the impact of the No Child Left Behind Act on those rights, and how to understand their legal rights and responsibilities. This up-to-date presentation provides insights into laws governing education as well as court decisions from all 50 states and the federal courts. Guiding legal principles are presented in such a way that educators can easily understand and follow today's trends in the law governing education. **Visions of Schooling** Rosemary C.

Salomone, 2008-10-01 *DIV* At no time in the past century have there been fiercer battles over our public schools than there are now. Parents and educational reformers are challenging not only the mission, content, and structure of mass compulsory schooling but also its underlying premise that the values promoted through public education are neutral and therefore acceptable to any reasonable person. In this important book, Rosemary Salomone sets aside the ideological and inflammatory rhetoric that surrounds today's debates over educational values and family choice. She offers instead a fair-minded examination of education for democratic citizenship in a society that values freedom of conscience and religious pluralism. And she proposes a balanced course of action that redefines but does not sever the relationship between education and the state. Salomone demonstrates how contemporary conflicts are the product of past educational and social movements. She lays bare some of the myths that support the current government monopoly over education and reveals how it privileges those of economic means. Through a detailed case study of recent controversy in a suburban New York school district, the author explores the legal and policy issues that arise when widely disparate world views stand in the way of political compromise on educational materials, techniques, and programs. Salomone builds a case for educational governance that places the developmental needs of the child at the center of family autonomy. She advances a plan that respects diverse values and visions of schooling while preserving the core commitments that bind our nation. *Ethical Issues in the Communication Process* J. Vernon Jensen, 2013-11-05

A rapid and widespread growth of interest in applied ethics is occurring today not only in the United States but around the world as well. Academia both reflects this and is a leader in the movement. The field of speech communication shares in this increased sensitivity to ethical concerns. Students and the general public are looking for thoughtful analyses and guidance in all areas of communication. Ethical concerns relative to mass communication have been the subject of a number of books, but only a very few cover the entire scope of communication to include interpersonal, intercultural, organizational, small groups, and public speaking. This book tries to fill that need by discussing ethical concerns as they emerge in the areas of the communication process: the communicator, the message, the media, the audience, and the situation. The speech communication field now has a need to digest and synthesize the existing research findings and the

general literature in the field and in related humanities and social science works into a coherent and nontechnical discussion. This volume explores the most up to date materials to provide just such a synthesis. An extensive bibliography at the end of the book gives readers the sources on which the book is based and offers ample avenues for further personal exploration. The book should provide meaningful food for thought as readers grapple conscientiously with the many everyday decisions made in communication transactions and in evaluating the communication of others. *The Iowa Alumnus*, 1912
