61 *Sample Question Papers for ICSE Class 10 Semester II Exam 2022* Oswal - Gurukul, 2022-01-30 *Child L2 Writers* Amparo Lázaro-Ibarrola, 2023-01-04 Studies on L2 writing tasks with child learners have broken through several barriers in the past few years. Although long considered a solitary task, writing is now regularly done in collaborative pairs and groups as well. New and more comprehensive writing and feedback strategies have been implemented and task repetition has made its way from oral into writing tasks. Finally, research analyses of linguistic outcomes have been complemented by measures of task motivation. Drawing on knowledge from the fields of psychology, education and SLA, this book includes a comprehensive and interdisciplinary analysis of this body of research. It pinpoints the specificity of writing tasks for child L2 learners, identifies the research gaps that pave the way for future research and offers a guide for teachers who wish to implement writing tasks with young language learners. In sum, this book demonstrates that child L2 writing constitutes a new field of inquiry and attempts to give child L2 writers a room of their own.

SCHOOL LIBRARIES OF 21st CENTURY (A study of Kendriya Vidyalayas) Dr. K. Ramasamy, 2021-01-02 1 1 Preamble Schools are the production centres endowed with the noble responsibility of producing learned, civilized and worthy citizens of a country. Every school has its own plan of action with a set of well designed curriculum objectives. The aim of the school is not just academic achievement of the students, rather the development of overall personality of them. And so emphasis is being given on scholastic, co-scholastic and non-scholastic skills of the students. Libraries in the schools are the strong supporting centres which supplement and complement the accomplishment of the objectives set forth by their parental bodies. They are the knowledge facilitation points in every school. According to the U.S. Commission on Libraries and Information Science, 2005, Students in schools with good school libraries learn more, get better grades and score higher on standardized test scores. p. 4 As Ranganathan, 1962, quoted, The result of modern rethinking on education is to make the library the heart of the school from which every activity in the school radiates and by which it all gets irradiated. International Association of School Librarianship (IASL) Policy statement on school libraries remarks that the school library is essential to the development of the human personality as well as the spiritual, moral, social, cultural and economic progress of the community. p. 1

Examining Young Learners: Research and Practice in Assessing the English of School-age Learners Szilvia Papp, Shelagh Rixon, 2018 The proposed book on child second language L2 development and assessment will be a state of the art account of what we currently know about how children learn L2s in formal contexts and how that knowledge impacts on the design, development and evaluation of language assessment products for young learners. The uniqueness of child L2 development within the classroom is highlighted by considering children's L2 needs, typical patterns of development and the role of instruction and assessment in how children learn. Common issues shared in child L2 acquisition studies, language testing and educational assessment are explored by linking research carried out within the educational, academic and testing communities. Several case studies are described.

from different educational contexts around the world where teaching and assessment of young language learners takes place. In particular, the book presents the Cambridge English approach to assessing young learners of English and presents a framework for the development research and validation activities around the Cambridge English suite battery for children.
