Risk Management for Hazardous Chemicals Jeffrey Wayne Vincoli, 1996-11-25

The key to successfully ensuring adequate protection of life, health, property, and the environment whenever and wherever hazardous chemicals are used is information. Having the right information readily available in easy-to-read, non-technical language can literally save a life. It can also prevent costly and devastating environmental contamination or property loss. However, anyone who has practiced in the field of occupational or environmental safety and health has been frustrated by the lack of available information. **Risk Management for Hazardous Chemicals** has been compiled to provide quick and accurate reference information for those who work with chemicals. It allows them to accomplish their duties more effectively, efficiently, and with more confidence. It is intended for anyone who needs to know about methods and procedures for managing the risks associated with using hazardous chemicals, including:
