KC **Sociology & Education** Joshua Campbell,2018-10-25 Teachers parents students and the governmental agencies are involved in the process of education The social levels from whom teachers and students come go to determine the quality of

education The process like the community from whom the teachers come and the communities from whom the students can go a long way in influencing the curriculum contents and the outcome of learning The major problem of any system of education is the outcome of learning after students learn the curriculum and go back to their home as trained citizens of a civilized society The book has in its contents much to help and guide the students to choose any one of the professional alternatives to decide the direction of their careers This book thus provides many educational ideas for both teachers and students and as such this book is a must for all educational institutions and interested persons as well This unique book is an incomparable title for today s educational researchers and will prove to be insightful with the continuing studies in sociology of education and sociology and education *News from the National 5 a Day Program* ,2001 **108-1 Hearings:**
