Laurie,2010-08-09 **How To Coach Youth Football** HowExpert,John

Seagroves,2013-01-15 We hear the reports and see the video all too often youth coaches and officials assaulted fights breaking out at youth sporting events and parents and coaches losing control over what should be a child s game It doesn t have to be that way What we don t see are the thousands of youth football coaches who do it the right way teaching the game and the ethos of the game to children who love to play Coaching youth football can be one of the most exciting exhilarating and rewarding experiences It takes a tremendous amount of hard work and an ability to communicate with other coaches players and parents but there are few things to compare with watching young people compete and win or learn lessons that will help them for a lifetime Teaching the game of football goes far beyond the white lines beyond the techniques of blocking and tackling Along with learning the fundamentals of the game young people learn teamwork sportsmanship responsible leadership and the need to work hard and prepare to reach goals To avoid being one of those trapped in a nightmare a youth coach must master the ability to relate to both players and parents Above all a coach must communicate It is important that parents trust the coach After all parents are submitting their child to a game that is by its very nature physically brutal Parents need to trust that the coach will have the best interests of the team and their child in mind at all times When those

interests collide parents need to know why a coach makes certain decisions and how that will affect their child Along with communicating with adults youth football coaches must be experts in understanding and relating to children Youth football players have very little concept of the actual fundamentals of the game They see a college or professional game on television and see long passes break away runs or big hits and the thousands of people who cheer while players celebrate This is far from the reality of the game Coaches must be able to demonstrate and teach fundamentals Big plays come out of the ability to be fundamentally sound and being fundamentally sound takes hour upon hour of watching listening and practicing In the NFL and increasingly in college success is defined by wins and losses The bottom line is paramount This isn't necessarily different at the youth level the bottom line is simply wider Wins and losses are important and no one wants to play for a loser But if a youth coach is successful they create not only wins on the field they also help to create joy in the hearts of children and parents players who learn how to play and how to be leaders and most of all a successful youth coach gives players the building blocks to be successful in life About the Expert John Seagroves has taught and coached at the middle school level for over a decade in eastern North Carolina He and his wife Corrie live in Rocky Mount They have one daughter Elizabeth who is an outstanding student and athlete in her own right He has coached football in four different school systems In that time his football teams have compiled a 784 winning percentage He has led football softball and basketball teams to county and conference titles in the process More importantly he is proud of the overwhelming success his players have had in the classroom many going on to study and earn college degrees at some of the most prestigious universities in the region Mr Seagroves would like to thank Coach Todd Brewer of Nash Central High School for his contributions on offensive philosophy for youth football and on how to establish expectations in your program Coach Brewer and Mr Seagroves spent several years coaching together and much of the information in this book evolved from that partnership HowExpert publishes quick how to guides on all topics from A to Z by everyday experts

Not for Long Robert W. Turner II,2018-07-06 The NFL is the most popular professional sports league in the United States Its athletes receive multimillion dollar contracts and almost endless media attention The league's most important game the Super Bowl is practically a national holiday Making it to the NFL

however is not about the promised land of fame and fortune Robert W Turner II draws on his personal experience as a former professional football player as well as interviews with more than 140 current and former NFL players to reveal what it means to be an athlete in the NFL and explain why so many players struggle with life after football Without guaranteed contracts the majority of players are forced out of the league after a few seasons Over three quarters of retirees experience bankruptcy or financial ruin two thirds live with chronic pain and too many find themselves on the wrong side of the law Robert W Turner II argues that the fall from grace of so many players is no accident The NFL he contends powerfully determines their experiences in and out of the league The labor agreement provides little job security and few health and retirement benefits and the owners refuse to share power with the players making change difficult And the process of becoming an elite football player from high school to college and through the pros leaves athletes with few marketable skills and little preparation for their first Sunday off the field With compassion and objectivity Not for Long reveals the life and mind of high school college and NFL athletes shedding light on what might best help players transition successfully out of the sport *Echoes of Georgia Football* Triumph Books,2006-09 A time capsule that recounts the greatest moments in Georgia lore and tracks the chronological progression of sports writing styles from the esoteric to the ultra modern this account details the popular team that has been to more bowl games than any other The book chronicles the Georgia Bulldogs from their roots of glory to their modern day triumphs
