The History of Paris ,1825 Historical Dictionary of the Netherlands Joop W. Koopmans,2015-11-05 The Kingdom of the Netherlands is a small but heavily populated country with almost 17 million inhabitants It is one of the last kingdoms in Europe and in 2015 it celebrated its 200 years anniversary The Netherlands became a kingdom after the Napoleonic era During this period it was transformed into a centralized state Before those years it had been one of few republics in Europe for about two centuries That state was a confederacy which emerged in the 1580s during its independence struggle against the Spanish Habsburgs Although the present state is still monarchical the Netherlands functions as a modern constitutional democracy in which the king s position is almost comparable with a ceremonial presidency The majority of the Dutch population however appreciates the hereditary political presence of the House of Orange Nassau regarding this dynasty as a symbol of national unity and connection with the country s past This third edition of Historical Dictionary of the Netherlands contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 900 cross

referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about the Netherlands *The Ecumenical Movement and the Making of the European Community* Lucian Leuștean,2014 A study that assesses the political history of religious dialogue in the European Community detailing close relations between churchmen and high ranking officials in European institutions immediately after the 1950 Schuman Declaration **States, Debt, and Power** Kenneth H.
