Compaine, Douglas Gomery, 2000-07-13 This long awaited third edition analyzes corporate ownership of major media including television film on line and print and includes primary influences government's roles and key criteria for evaluating the current state of media ownership *The Age of Resilience* Jeremy Rifkin, 2022-11-01 A sweeping new interpretation of the history of civilization and a transformative vision of how our species will thrive on an unpredictable Earth The viruses keep coming the climate is warming and the Earth is rewilding Our human family has no playbook to address the mayhem unfolding around us If there is a change to reckon with argues the renowned economic and social theorist Jeremy Rifkin it's that we are beginning to realize that the human race never had dominion over the Earth and that nature is far more formidable than we thought while our species seems much smaller and less significant in the bigger picture of life on Earth undermining our long cherished worldview The Age of Progress once considered sacrosanct is on a deathwatch while a powerful new narrative the Age of Resilience is ascending In *The Age of Resilience* Rifkin takes us on a new journey beginning with how we reconceptualize time and navigate space During the Age of Progress efficiency was the gold standard for organizing time locking our species into the quest to optimize the expropriation commodification and consumption of the Earth's bounty at ever greater speeds and in ever shrinking time intervals with the objective of increasing the opulence of human society but at the expense of the depletion of nature Space observes Rifkin became synonymous with passive natural resources while a principal role of government and the economy was to manage nature as property This long adhered to temporal spatial orientation writes Rifkin has taken humanity to the commanding heights as the dominant species on Earth and to the ruin of the natural world In the emerging era says Rifkin efficiency is giving way to adaptivity as the all encompassing temporal value while space is perceived as animated self organizing and fluid A younger generation in turn is pivoting from growth to flourishing finance capital to ecological capital productivity to regenerativity Gross Domestic Product to Quality of Life Indicators hyper consumption to eco stewardship globalization to glocalization geopolitics to biosphere politics nation state sovereignty to bioregional governance and representative democracy to citizen assemblies and distributed peerocracy Future generations suggests Rifkin will likely experience existence less as objects and structures and more as patterns and processes and come to understand that each of us is literally an ecosystem made up of the microorganisms and elements that comprise the hydrosphere lithosphere atmosphere and biosphere The autonomous self of the Age of Progress is giving way to the ecological self of the Age of Resilience The now worn scientific method that underwrote the Age of Progress is also falling by the wayside making room for a new approach to science called Complex Adaptive Systems modeling Likewise detached reason is losing cachet while empathy and biophilia become the norm At a moment when the human family is deeply despairing of the future Rifkin gives us a window into a promising new world and a radically different future that can bring us back into nature's fold giving life a second chance to flourish on Earth

American Journalism Review ,1999-07 The New York Times Index ,2006 *Teaching for Apocalypse* Meg Gorzycki,2020-12-16 If the coronavirus does not get us our ignorance might The COVID 19 pandemic exposed serious gaps in Americans education Did education cause the outbreak No Did our assumptions false narratives about the world and our willingness to blindly accept whatever our partisan poohbahs said contribute to our woes Perhaps Could education be improved so we can better understand the world nature public health economics and our own government Absolutely During the pandemic thousands of teachers flocked to the silicon sanctuary as shelter in place mandates forced schools and universities into the digital classroom Instructors urgently wanted to know which boxes to click in their learning management systems The how to literature proliferated and much of it walked a fine line between reasonable adjustments and outright abdication of high standards of academic achievement and intellectual development A case is made here that education was in trouble long before COVID 19 appeared and that if we do not make substantial reforms in our schools and colleges whether online or not we will be at the mercy of our own ignorance as the problems of the twenty first century crash into our lives
