Cars of the Soviet Union Andy Thompson, 2008 The story of the Soviet Union's cars has to be seen in the context of a planned society in which everything was planned well in advance and consumer items were not a priority until well after the Second World War This extraordinarily detailed study charts the history of Soviet cars from the birth of the Soviet Union in 1917 until its demise in

1990 with a conclusion about the post Soviet era It is the story of an insular state run car industry in which the carefully thought out ideas of ministerial planners rather than fickle customers in a free market determined what cars were made in a country where the open road was often a 300 mile track across a windswept steppe **National Crime Information**
