Kennett, Kim Suzanne Rathke, Kristin van Brunt, 2015-12-03 The Game Plan is the first professional book that gives secondary administrators literacy coaches and other instructional leaders a step by step blueprint for implementing the Common Core Literacy Standards for History Social Studies Science and the Technical Subjects and other college and career readiness standards The book provides principals district supervisors instructional coaches and other leaders with a coherent realistic plan to build a school wide culture of literacy instruction data use and PLC based cycles of reflection planning and action This multi year plan is built on a continuous cycle of improvement philosophy and is modular in nature allowing leaders to rearrange substitute and modify the plan to meet the needs of any secondary school Organized in two parts the first section of The Game Plan lays out a semester by semester flexible configuration for introducing implementing and supporting the literacy standards over the course of six full school years this section also includes detailed guidelines for creating a

comprehensive assessment plan to gather analyze and act on school data The second section includes instructional tools and strategies for reading writing vocabulary and other aspects of the literacy standards that teachers in all subject areas can use

Game Plan Hector Garcia,Katherine McCluskey,2015-04-02 Create a uniform game plan to foster a collaborative community of learners develop a shared focus and meet growth goals Examine new concepts of leadership and learn how to effectively assemble schoolwide commitment to PLC principles Explore coaching points and tools you can use to customize strategies for teachers and leaders who must share collective responsibility to drive lasting change Results Now Mike Schmoker,2006-06-30 According to author Mike Schmoker there is a yawning gap between the most well known essential practices and the reality of most classrooms This gap persists despite the hard often heroic work done by many teachers and administrators Schmoker believes that teachers and administrators may know what the best practices are but they aren t using them or reinforcing them consistently He asserts that our schools are protected by a buffer a protective barrier that prevents scrutiny of instruction by outsiders The buffer exists within the school as well Teachers often know only what is going on in their classrooms and they may be completely in the dark about what other teachers in the school are doing Even principals says Schmoker don t have a clear view of the daily practices of teaching and learning in their schools Schmoker suggests that we need to get beyond this buffer to confront the truth about what is happening in classrooms and to allow teachers to learn from each other and to be supervised properly He outlines a plan that focuses on the importance of consistent curriculum authentic literacy education and professional learning communities for teachers What will students get out of this new approach Learning for life Schmoker argues passionately that students become learners for life when they have more opportunities to engage in strategic reading writing with explicit guidance and argument and discussion Through strong teamwork true leadership and authentic learning schools and their students can reach new heights Results Now is a rally cry for educators to focus on what counts If they do Schmoker promises the entire school community can count on unprecedented achievements *101 Questions & Answers about Standards, Assessment, and Accountability* Douglas B. Reeves,2001 Easy to use reference book with clear answers to today s most frequently asked questions in education today
