Quality and Equity Heidi Knipprath, 2005 Fairness and Validation in Language Assessment Antony John Kunnan, 2000-10-12 Fairness of language tests and testing practices has been a concern among test developers and test users The 19th annual

Language Testing Research Colloquium held in 1997 in Florida brought this concern into focus. The papers in this volume offer an introduction to fairness and validation in the field of language assessment.

Pedagogy of Language Learning in Higher Education Gerd Bräuer, 2001-03-30. Fifteen authors from the United States, Australia, and Germany contribute articles on issues such as the political agenda of higher institutions, language across the curriculum, service learning, adult education, artistic and aesthetic practice, intercultural awareness through electronic media, extra-curricular consultation, and language learning outreach related to Portuguese, Spanish, Russian, Japanese, French, German, and English as a foreign and second language. The second volume of the series *Advances in Foreign and Second Language Pedagogy* is an introduction to the pedagogy of language learning in higher education, focusing on learner motivation, classroom environments, relationships for learning, and the future of language education. The book reveals numerous links to language education on the secondary level, appealing to a wide audience.

Revisiting the Assessment of Second Language Abilities: From Theory to Practice Sahbi Hidri, 2018-01-12. This book presents an overview of revisiting the assessment of language abilities. It also showcases how the measurement of such constructs can result in negative or positive washback and how outcomes might be conducive to repercussions that decide on the future of many stakeholders. The 23 chapters were selected among tens of chapters received from different contexts that addressed the issue of revisiting the assessment of language abilities, such as Tunisia, Ukraine, Algeria, Russia, KSA, Sudan, Egypt, Canada, Kurdistan, UK, USA, Iran, Turkey, etc. These contexts have highlighted the necessity to revisit the different constructs which should be assessed with a clear and straightforward foundation on students' learning objectives and their actual language ability. To do so, most of the chapters present hands-on use of relevant statistical tests that might serve in revisiting the construct definition, both theoretically and operationally. Perhaps the sole and intricate question that the authors of these contributions ask is what it means to revisit the assessment of the construct of individualized language ability and how. In addition, the book accentuates the momentousness and significance of reflecting on test fairness and validation as the mainspring and backbone for democratization of assessment. This book appeals to a broad readership such as English Language Teaching (ELT) practitioners, language teachers, students, testing organizations, policy makers, test designers, writers of test specifications, testing experts, researchers, program evaluators, especially in the Middle East and North Africa (MENA) as well as other international contexts.
