

**FOCUSED SITE INVESTIGATION REPORT  
NAPERVILLE SPORTSMAN'S PARK  
735 SOUTH WEST STREET, NAPERVILLE, ILLINOIS  
ILLINOIS SITE REMEDIATION PROGRAM SUBMITTAL**

Shaw Environmental, Inc. (Shaw) has prepared this *Focused Site Investigation Report (FSIR)*, for the Naperville Sportsman's Park located at 735 South West Street in Naperville, DuPage County, Illinois (hereinafter referred to as the Site). The *FSIR* was completed on behalf of the Remedial Applicant, the Naperville Park District (NPD).

The 27-acre Site is managed by the NPD and owned by the City of Naperville. The NPD leased the property in 1988 for a 99-year term. Since 1948, Sportsman's Park utilization has included gun club activities, which are conducted by the Naperville Sportsman's Club. The Site was previously enrolled in the Illinois Environmental Protection Agency (IEPA) Site Remediation Program (SRP). The portion of the Site located outside of the Shooting Range fence was issued a *no further remediation* determination of Total Lead in 1998.

Prior to assessment activities, a Phase I Environmental Site Assessment (ESA) and Site Investigation Work Plan (SIWP) were submitted to SRP for review and approval. The SIWP was revised in accordance with SRP comment, resubmitted (IEPA Log No. 12-49751) and approved by the SRP in a January 30, 2012 correspondence. In general, this investigation was completed in accordance with the IEPA approved SIWP and the requirements of 35 Illinois Administrative Code (IAC) Part 740.430 and Parts 740.435.

The objective of the focused investigation was to characterize and identify the nature and extent of Site environmental impacts resulting from the former/historical trap-shooting and small arms shooting range activities. Prior to 1998, practices at the Site included the use of lead bearing shot and bullets and Poly-Nuclear Aromatic (PNA) bearing bituminous clay pigeon/targets. At this time, the Site National Pollutant Discharge Elimination System (NPDES) permit (IL0073253) requires the use of environmentally friendly steel shot and biodegradable targets.

The Site is covered with a mix of densely wooded areas, wetlands, surface water features and improved with various structures including a "club house" building, detached storage garage, and typical trap shooting range amenities. The land use surrounding the property is best described as mixed commercial and residential use. The Site property is leased by the NPD from the City of Naperville.

Based on information obtained during the Shaw 2012 focused investigations, including the results of field observations and analysis of numerous soil, sediment, groundwater and surface water samples, Shaw has developed the following conclusions:
