A Change of Appetite Diana Henry,2016-10-20 What happened when one of today s best loved food writers had a change of appetite Here are the dishes that Diana Henry created when she started to crave a different kind of diet less meat and heavy food more vegetable fish and grain based dishes often inspired by the food of the Middle East and Far East but also drawing on cuisines from Georgia to Scandinavia In her year of good eating Diana lost weight but this was about much more than weight loss lead by taste it was about discovering a healthier fresher way of eating From a Cambodian salad of shrimps grapefruit toasted coconut and mint or North African mackerel with cumin to blood orange and cardamom sorbet the magical dishes in this book are bursting with flavor with goodness and with color Peppering the recipes is Diana s inimitable writing on everything from the miracle of broth to the great carbohydrate debate Above all this is about opening up our palates to new possibilities There is no austerity here simply fabulous food that nourishes body and soul

Family Ethics Julie Hanlon Rubio,2010-03-17 How can ordinary Christians find moral guidance for the mundane dilemmas they confront in their daily lives To answer this question Julie Hanlon Rubio brings together a rich Catholic theology of marriage and a strong commitment to social justice to focus on the place where the ethics of ordinary life are played out the family Sex money eating spirituality and service According to Rubio all are areas for practical application of an ethics of the family In each area intentional practices can function as acts of resistance to a cultural and middle class conformity that promotes materialism over relationships These practices forge deep connections within the family and help families live out their calling to be in solidarity with others and participate in social change from below It is through these everyday moral choices that most Christians can live out their faith and contribute to progress in the world

Comfortably Unaware Richard Oppenlander,2012-11-13 In Comfortably Unaware Dr Richard Oppenlander tackles the crucial issue of global depletion as it relates to food choice We should all be committed he tells us to understanding the reality and consequences of our diet the footprint it makes on our environment and seek food products that are in the best interest of all living things His forthright information and stark mental images are often disturbing and that s how it should be As the guardians of Planet Earth we need to be shaken out of our complacency to stop being comfortably unaware and to understand the measures we must take to ensure the health and well being of our planet and of ourselves Oppenlander

A Matter of Taste Rebecca Tucker,2018-11-27 How farmer s markets and organic produce became synonymous with good food and why they shouldn t be How did farmer s markets nose to tail locavorism organic eating CSAs whole foods and Whole Foods become synonymous with good food And are these practices really producing food that is morally environmentally or economically sustainable Rebecca Tucker s compelling reported argument shows that we must work to undo the moral coding that we use to interpret how we come by what we put on our plates She investigates not only the danger of the

accepted rhetoric but the innovative work happening on farms and university campuses to create a future where nutritious food is climate change resilient hardy enough to grow season after season and most importantly available to all not just those willing or able to fork over the small fortune required for a perfect heirloom tomato Tucker argues that arriving at that future will require a broad cognitive shift away from the idea that farmer s markets community gardens and organic food production is the only sustainable way forward more than that it will require the commitment of research firms governments corporations and post secondary institutions to develop and implement agriscience innovations that do more than improve the bottom line A Matter of Taste asks us to rethink what good food really is

Commodity Activism Roopali Mukherjee, Sarah Banet-Weiser, 2012-02 Buying RED products from Gap T shirts to Apple to fight AIDS Drinking a Caring Cup of coffee at the Coffee Bean Tea Leaf to support fair trade Driving a Toyota Prius to fight global warming All these commonplace activities point to a central feature of contemporary culture the most common way we participate in social activism is by buying something Roopali Mukherjee and Sarah Banet Weiser have gathered an exemplary group of scholars to explore this new landscape through a series of case studies of commodity activism Drawing from television film consumer activist campaigns and cultures of celebrity and corporate patronage the essays take up examples such as the Dove Real Beauty campaign sex positive retail activism ABC s Extreme Home Makeover and Angelina Jolie as multinational celebrity missionary Exploring the complexities embedded in contemporary political activism *Commodity Activism* reveals the workings of power and resistance as well as citizenship and subjectivity in the neoliberal era Refusing to simply position politics in opposition to consumerism this collection teases out the relationships between material cultures and political subjectivities arguing that activism may itself be transforming into a branded commodity

Social and Cultural Aspects of the Circular Economy Viktor Pál, 2022-06-15 This collection of essays brings together discussions arguing that the circular economy must be linked to society and culture in order to create a viable concept for remodelling the economy Covering a diverse range of topics and regions including cities and living food and human waste packaging and law fashion design and art this book provides a multi layered examination of circularity Transitioning to a circular economy reducing resource input and waste and narrowing material and energy loops are becoming an increasingly important targets to combat decades of unsustainable models of consumption However they will require a significant shift in social and cultural thinking and these dimensions have not yet been factored into policy debates and frameworks While recognising the key role of individual consumers and their behaviours the book goes beyond this singular perspective to provide equal focus on institutional and political structures as necessary drivers for real change Social and Cultural Aspects of the Circular Economy argues for a social and solidarity economy SSE to combine individual actions with a wider cultural shift It will be an important read for scholars researchers students and policy makers in the circular economy waste studies consumption and other environmentally focused social sciences

Nutritionism Gyorgy Scrinis, 2013-06-18 Popularized by Michael Pollan in his best selling In Defense of Food Gyorgy Scrinis s concept of nutritionism refers to the reductive understanding of nutrients as the key indicators of healthy food an approach that has dominated nutrition science dietary advice and food marketing Scrinis argues this ideology has narrowed and in some cases distorted our appreciation of food quality such that even highly processed foods may be perceived as healthful depending on their content of good or bad nutrients Investigating the butter versus margarine debate the battle between low fat low carb and other weight loss diets and the food industry s strategic promotion of nutritionally enhanced foods Scrinis reveals the scientific social and economic factors driving our modern fascination with nutrition Scrinis develops an original framework and terminology for analyzing the characteristics and consequences of nutritionism since the late nineteenth century He begins with the era of quantification in which the idea of protective nutrients caloric reductionism and vitamins curative effects took shape He follows with the era of good and bad nutritionism which set nutricentric dietary guidelines and defined the parameters of unhealthy nutrients and concludes with our current era of functional nutritionism in which the focus has shifted to targeted nutrients superfoods and optimal diets Scrinis s research

underscores the critical role of nutrition science and dietary advice in shaping our relationship to food and our bodies and in heightening our nutritional anxieties He ultimately shows how nutritionism has aligned the demands and perceived needs of consumers with the commercial interests of food manufacturers and corporations Scrinis also offers an alternative paradigm for assessing the healthfulness of foods the food quality paradigm that privileges food production and processing quality cultural traditional knowledge and sensual practical experience and promotes less reductive forms of nutrition research and dietary advice
