Jean,Donnelli-Sallee, Emily,2020-10-16 As the number of adjunct faculty teaching online courses remotely for their institutions continues to increase so do the unique challenges they face including issues of distance and isolation as well as problems pertaining to motivation time and compensation Not only are these higher education faculty geographically isolated from each other and their colleagues at flagship campuses but they also lack adequate institutional support and resources necessary to perform their roles As institutions continue to rely heavily on this group of under supported and undertrained instructors who teach the majority of online courses offered across the country institutions need models and strategies to tap the expertise and perspectives of this group not only to improve teaching and learning in online programs but also to retain this critical talent pool More consideration is needed to create institutional affinity and organizational commitment build community and create opportunities for remote adjunct faculty to be included as an integral component to their academic departments The Handbook of Research on Inclusive Development for Remote Adjunct Faculty in Higher Education is a comprehensive reference work that presents research theoretical frameworks instructor perspectives and program models that highlight effective strategies innovative approaches and unique considerations for creating professional development opportunities for remote adjunct faculty teaching online This book provides concrete practices that foster inclusivity among contingent faculty teaching online as well as tangible practices that have been successfully implemented from faculty developers and academic leaders at institutions who have a large population of and heavy reliance on remote adjunct instructors While addressing topics that include faculty engagement mentoring programs and instructor resources this book intends to support remote instructors in the post pandemic world It is also beneficial for faculty development professionals academic administrative leaders higher education stakeholders and higher education faculty researchers and students

Big Hunger Andrew Fisher,2018-04-13 How to focus anti hunger efforts not on charity but on the root causes of food insecurity improving public health and reducing income inequality Food banks and food pantries have proliferated in response to an economic emergency The loss of manufacturing jobs combined with the recession of the early 1980s and Reagan administration cutbacks in federal programs led to an explosion in the growth of food charity This was meant to be a stopgap measure but the jobs never came back and the emergency food system became an industry In Big Hunger Andrew Fisher takes a critical look at the business of hunger and offers a new vision for the anti hunger movement From one perspective anti hunger leaders have been extraordinarily effective Food charity is embedded in American civil society and federal food programs have remained intact while other anti poverty programs have been eliminated or slashed But anti hunger advocates are missing an essential element of the problem economic inequality driven by low wages Reliant on corporate donations of food and money anti hunger organizations have failed to hold business accountable for offshoring jobs

cutting benefits exploiting workers and rural communities and resisting wage increases They have become part of a hunger industrial complex that seems as self perpetuating as the more famous military industrial complex Fisher lays out a vision that encompasses a broader definition of hunger characterized by a focus on public health economic justice and economic democracy He points to the work of numerous grassroots organizations that are leading the way in these fields as models for the rest of the anti hunger sector It is only through approaches like these that we can hope to end hunger not just manage it

Municipal Fiscal Stress, Bankruptcies, and Other Financial Emergencies Tatyana Guzman,Natalia

Ermasova,2022-11-30 It is difficult to find someone who has not heard about the Puerto Rico Detroit Michigan or Orange County California bankruptcies While guides for responsibly managing government finances exist problems often originate not because of poor financial reporting or financial deficiencies but because issues external to financial wellbeing arise such as economic demographic political legal or even environmental factors Exacerbating the problem there is not much advice in the existing literature on how to act when municipalities face financial struggles Filling this important gap this book explores fiscal health and fiscal hardships municipal defaults and bankruptcies and many other aspects to help guide local governments during fiscal distress Fiscal hardships negatively affect the quality and availability of public goods and services and consequently the wellbeing of residents and businesses living and working in distressed municipalities Turned off streetlights unmaintained public parks potholes inconsistent garbage pickup longer response time from emergency services and multiple other issues that residents of the struggling municipalities deal with lead to higher crime rates lower quality of K 12 education dangerous road conditions lower housing values outmigration of wealthier population and numerous other problems The COVID 19 pandemic put additional unprecedented pressure on municipal finances nationwide In this book authors Tatyana Guzman and Natalia Ermasova evaluate distressed cities and municipalities and provide practical recommendations on improving their financial conditions What are conditions and signs to look for to not to find yourself in similar situations What can be done if your municipality is already experiencing fiscal hardships What are the consequences of fiscal misfortunes How does one exit a fiscal emergency This book answers these and other questions and serves as a guide to fiscal health and prosperity for U S municipal governments students and researchers in public finance and general public management fields **The General Statutes of Connecticut** Connecticut,2016 *Clearinghouse Review* ,1994

SNAP Matters Judith Bartfeld,Craig Gundersen,Timothy Smeeding,James P. Ziliak,2015-11-25 In 1963 President Kennedy proposed making permanent a small pilot project called the Food Stamp Program FSP By 2013 the program s fiftieth year more than one in seven Americans received benefits at a cost of nearly 80 billion Renamed the Supplemental Nutrition Assistance Program SNAP in 2008 it currently faces sharp political pressure but the social science research necessary to guide policy is still nascent In SNAP Matters Judith Bartfeld Craig Gundersen Timothy M Smeeding and James P Ziliak bring together top scholars to begin asking and answering the questions that matter For example what are the

antipoverty effects of SNAP Does SNAP cause obesity Or does it improve nutrition and health more broadly To what extent does SNAP work in tandem with other programs such as school breakfast and lunch Overall the volume concludes that SNAP is highly responsive to macroeconomic pressures and is one of the most effective antipoverty programs in the safety net but the volume also encourages policymakers students and researchers to continue examining this major pillar of social assistance in America Rural Poverty in the United States Ann R. Tickamyer, Jennifer Sherman, Jennifer Warlick, 2017-08-22 America's rural areas have always held a disproportionate share of the nation's poorest populations Rural Poverty in the United States examines why What is it about the geography demography and history of rural communities that keeps them poor In a comprehensive analysis that extends from the Civil War to the present Rural Poverty in the United States looks at access to human and social capital food security healthcare and the environment homelessness gender roles and relations racial inequalities and immigration trends to isolate the underlying causes of persistent rural poverty Contributors to this volume incorporate approaches from multiple disciplines including sociology economics demography race and gender studies public health education criminal justice social welfare and other social science fields They take a hard look at current and past programs to alleviate rural poverty and use their failures to suggest alternatives that could improve the well being of rural Americans for years to come These essays work hard to define rural poverty's specific metrics and markers a critical step for building better policy and practice Considering gender race and immigration the book appreciates the overlooked structural and institutional dimensions of ongoing rural poverty and its larger social consequences United States Code United States, 2018 **West's Federal Practice Digest**, 2002 **Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations for 2016: USDA Inspector General; USDA Food Safety and Inspection Service; Commodity Futures Trading Commission; Farm Credit Administration** United States. Congress. House. Committee on Appropriations. Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies, 2015 **Nationalism and Intra-State Conflicts in the Postcolonial World** Fonkem Achankeng, 2015-09-28 This book highlights the complexities of nationalism and the struggles of different groups left unaddressed within the nation states of a postcolonial world The central question is what happened to the worldly and radical visions of freedom liberty and equality that animated intellectual activists and policy makers from Woodrow Wilson in the 1920s This book analyzes the outcome of lumping disparate groups of people together under one nation state and holding them together against the knowledge of the incompatibility theory of plural states In a world of arbitrarily and colonially mapped sovereign states groups and nations with distinctive histories and cultures trapped within the borders of sovereign states want the freedom to decide their own destinies This book challenges deconstructs and decolonizes Western epistemologies related to postcolonial state formation and maintenance In examining the freedom concept that no human group ought to be determining the independence of other human groups this book constructs an alternative

conceptualization of nations and peoples rights in the twenty first century in which radical hopes and global dreams are recognized as central to internal nationalism struggles *The Intersection of Food and Public Health* A. Bryce Hoflund, John C. Jones, Michelle C. Pautz, 2017-09-13 Presently ideas about food are in flux from a variety of sources Examples of this evolution include recognizing the importance of food on health by public health and medical professionals changing consumer desires around the production methods and components of their food a greater focus on injustices within the national food system evolving knowledge of how the food system impacts the environment and shifting economic and technological realities that underpin where and how food is produced distributed and sold These shifting ideas about food exist in contrast to the narrative of the highly functioning industrialized global food system that emerged in the second half of the 20th century This edited volume fills a void by presenting a comprehensive and engaging coverage of the key issues at the intersection of public health policy and food The Intersection of Food and Public Health is comprised of research that examines current problems in food studies and how various stakeholders are attempting to address problems in unique ways The book will be of interest to undergraduate and graduate students in a variety of disciplines including public administration public policy public health economics political science nutrition dietetics and food studies
