

GUIDANCE FOR SHIP OPERATORS ON PORT STATE CONTROL AS FROM 20 AUGUST 2003

The International Shipping Federation (ISF) is the identity used by the International Chamber of Shipping (ICS) when acting as the international employers' organisation for ship operators. ISF co-ordinates the representation of shipowners at the International Labour Organisation (ILO) in the development of maritime labour standards.

As an official Social Partner under the European E.O. process, ICF must cooperate for negotiating the text of the E.O. MLC with governments and confederations' trade unions. ICF therefore has a very special interest in wanting to ensure the Commission, through its communication,

The membership of EAP and E.C. comprises national physicians associations from 26 nations representing 80% of the world population (1974).

At the 2006 Diplomatic Conference which adopted the MLC, ILO also adopted a Resolution which recommends that Port State Control (PSC) should not commence until 12 months after entry into force, i.e. August 2014. However, some port states, if they have ratified the MLC, may still decide to subject ships to PSC inspections to check compliance with the MLC from 20 August 2013 *

The ILO MLC addresses a wide range of matters including shipping companies' obligations regarding seafarers' contractual arrangements, oversight of manning agencies, working hours, health and safety, crew accommodation, catering standards, and seafarers' welfare.

Provided that they put in the effort, the vast majority of companies should not have any difficulty complying with the substance of the Convention, which in large part is derived from existing ILO maritime standards and accepted good employment practice.

However, the enforcement mechanism is new. Shipping companies therefore must get to grips with the certification process in order to avoid port state control problems, and take appropriate measures in the event that flag states have not issued required documentation or guidance.
