

NGSSS
Florida's Next Generation
Standards

Grade 8
Florida Statewide
Science Assessment
Answer Key

These standards constitute a portion of the Florida Statewide Science Assessment standards used previously, and must be supplemented with other standards, items, and resources from their respective assessors, (individuals responsible). It is also noted that these standards, including State Standards (SC.8.S.12.1) previously associated by each state in February 2020, are State Board of Education adopted updated standards. These new standards are included in this booklet to provide users with additional information.

Multiple-choice items on Florida Statewide Science Assessments are scored by marking each item as either correct or incorrect answer.

This project will focus on providing input materials to the assessors and students for the items and questions on Florida Statewide Science Assessments. By using these materials, students will become familiar with the items and questions and responses that they will see on the actual test. The questions and responses are not intended to demonstrate the length of the actual test, nor should students respond to any of the questions or items presented in this booklet.
