Homeschooling Martine Millman, Gregory Millman, 2008-08-14 This intimate eminently practical memoir of a successful homeschooled family of six children illuminates today s most exciting choice in education and shows how it works from cradle to college What is it that homeschoolers do that the public schools can t or won t There are at least as many answers as there are studies But nothing can capture the homeschooling experience in all its richness like the story of a real family that homeschools its children in middleclass America Homeschooling A Family s Journey is the perfect book for those millions of

Americans who may know someone who homeschools who may have read about it thought about it and wondered whether homeschooling is right for them Sharing the concerns of committed parents everywhere authors Gregory and Martine Millman are consistently practical informed caring and no nonsense in their approach They pay special attention to homeschooling and college the economics of home learning and how a parent can really handle a child s full education Homeschooling opens a window on an exciting important way of education and even more a way of life that can make all the difference in your family s world Workplace Learning in Teacher Education Olwen McNamara, Jean Murray, Marion Jones, 2013-11-19 This book explores teacher workplace learning from four different perspectives social policy international comparators multi professional stances perspectives and socio cultural theory First it considers the policy and practice context of professional learning in teacher education in England and the rest of the UK with particular reference to professional masters level provision The importance of teachers and schools perceptions of improvement development and learning and the inherent tensions between individual school and government priorities is explored Second the book considers models of teacher workplace learning to be found in international research and practice to explore what perspective they can bring to understanding policy and practice relating to workplace learning in the UK Third it draws on cross professional analysis to get an intellectual and theoretical purchase on workplace learning by examining how insights from across the professions can provide us with useful perspectives on policy and practice The analysis draws particularly on insights from medicine and educational psychology Fourth the book cross fertilises research and practice across the field of education by drawing on insights from perspectives such as socio cultural and activity theory and situated learning cognition to discover what they can offer in analysing the theoretical and pedagogic underpinnings of teacher workplace learning In short the book offers a number of contexts for exploring how best to conceptualise and theorise learning in the workplace in order to generate evidence to inform policy and practice and facilitates the development of a more theoretically informed and robust model of workplace learning and teaching Publishers' circular and booksellers' record ,1877 The Christian Evangelist ,1903 Normal Instructor and Teachers World .1928
