

Microbial Protection

How microbially-influenced components of immunity?

Why?

The importance is evident in the importance of humoral immunity against pathogens. For all immunologic conditions (e.g. allergy, the disease of hypersensitivity) that occur in children with the underlying immunologic differences to and from the adult, humoral immunity interacts with the immune response to the presence of external antigens. Therefore, immunity in children may be more complicated. I have suggested humoral immune response components that may be specific functions.
