Teacher Development for Content-Based Language Education Susan Ballinger, Ruth Fielding, Diane J. Tedick, 2024-09-10 This book fills a large gap in our understanding of how to prepare teachers for the challenging but increasingly popular task of integrating content and language instruction. It brings together findings on content-based teacher education from Africa, Asia, Australia, Europe, and North America in order to inform researchers and teacher educators and enable them to play a critical role in the continued success of such programs. It offers a solid grounding in theories and applications of content-based approaches with empirical studies investigating teacher identity, materials design, use of cognitive discourse functions, and best practices for teacher education. Responding to the growing popularity of content-based programs and the shortage of qualified teachers for these contexts, this book promotes teacher-researcher collaboration and provides support for trainee teachers, in-service teachers, and course leaders.

It brings together a number of conceptual and empirical studies on translanguaging in EMI at different educational levels in a variety of countries with different approaches to translanguaging, different named languages, and different policies. These studies include several underrepresented contexts across the globe, providing a broad view of how translanguaging in EMI is understood in these

educational settings Furthermore this book addresses the complexities of translinguaging through a discussion of the affordances and constraints associated with the use of multiple linguistic resources in the EMI classroom **EBOOK: Developing Writers: Teaching and Learning in the Digital Age** Richard Andrews, Anna Smith, 2011-07-16 This book takes a fresh look at what it means to learn and develop as a writer in response to concerns on both sides of the Atlantic and elsewhere in the world about standards in writing In this book the authors seek answers to some perennial questions Why does performance in writing tend to lag behind that in reading Are the productive skills of speaking and writing more difficult because they require the learner to make something new What does it mean to develop as a writer This book provides the foundation for developing the teaching of writing It does so by Reviewing and comparing models of writing pedagogy from the last fifty years Discussing the notion of development in depth Developing a new theory and model for writing in the multimodal and digital age Its basic premise is that writing needs to be re conceived as one crucial component of communication among other modes Andrews and Smith argue that although existing theories have provided insights into the teaching and learning of writing we need to bring such theories up to date in the digital and multimodal age Developing Writers is designed for teachers academics researchers curriculum designers parents and others who are interested in writing development It will also be intended for anyone who is interested in developing their own writing and who wishes to understand the principles on which such development is based Continue the conversation at www.developingwriters.org
