Geograph Paper1 November 2013:

Towards Good Order at Sea Thomas Mandrup, Francois Vre~, 2015-03-01 The problems originating from the resultant bad order at sea can be directly felt on land when smuggling terrorism and related criminal activities operate more or less unhindered The book provides an important mapping of the challenges preventing good order at sea off the African coast and East Africa in particular Rear Admiral N Wang Commandant Royal Danish Defence College *Accessibility, Equity and Efficiency* Karst T. Geurs, Roberto Patuelli, Tomaz Ponce Dentinho, 2016-02-26 Leading researchers from around the world show in this volume the importance of accessibility in contemporary issues such as rural depopulation investments in public services and public transport and transport infrastructure investments in Europe The trade offs between accessibility economic development and equity are comprehensively examined and a variety of approaches to measuring accessibility and equality presented The book s interdisciplinary contributions also provide different geographical contexts from the US to various European and developing countries and cover ex ante and ex post evaluation of transport investment Improving transport accessibility is a main objective in transport policy and planning in developed and developing countries all over the world Investment is motivated by the need to develop and or reduce spatial or social inequalities However the economic and equity implications of investments in transport are not straightforward The concepts of accessibility and equity can be defined and operationalized in many different ways influencing outcomes and conclusions Moreover equity and efficiency goals are often conflicting Accessibility models not only help to explain spatial and transport patterns in developed and developing countries but are also powerful tools to explain the equity and efficiency impacts of urban and transport policies and projects This state of the art overview of the accessibility economic efficiency equity relationship will appeal to researchers as well as transport and urban planners interested in accessibility issues and transport regional developments

The Trans Pacific Partnership, China and India Amitendu Palit, 2014-06-05 The United States and 11 other countries from both sides of the Pacific are currently negotiating the Trans Pacific Partnership TPP The agreement is expected to set new benchmark for international trade through its comprehensive coverage of issues and binding regulations It is expected to eventually mature into a regional trade agreement covering the entire Asia Pacific As of now it does not include China and India the two largest emerging markets and regional economies The TPP has generated controversy for its excessive emphasis on trade issues which have remained unresolved or unaddressed at the WTO due to differences between developed and emerging markets It has also been criticized for adopting a negotiating style reflecting the US regulatory approach to international trade and also as a geo political strategy of the US for supporting its strategic rebalancing towards Asia From both economic and geo political perspectives the TPP has various significant implications for China and India that are examined in the book This book sheds light on how China and India s entries in the TPP are mutually beneficial and how both countries can gain from the TPP by gaining preferential access to large markets and using it as an opportunity for

introducing more outward oriented reforms The book also cautions that US must reconcile to the rebalancing of economic power within the grouping that will occur following the entries of China and India Otherwise the TPP and China and India might walk divergent paths and trade and regional integration in Asia Pacific may not ever converge This book will interest anyone who wishes to learn more about the TPP and its future implications and challenges and China and India s roles in global and regional trade

Incomplete Streets Stephen Zavestoski, Julian Agyeman, 2014-08-27 The Complete Streets concept and movement in urban planning and policy has been hailed by many as a revolution that aims to challenge the auto normative paradigm by reversing the broader effects of an urban form shaped by the logic of keeping automobiles moving By enabling safe access for all users Complete Streets promise to make cities more walkable and livable and at the same time more sustainable This book problematizes the Complete Streets concept by suggesting that streets should not be thought of as merely physical spaces but as symbolic and social spaces When important social and symbolic narratives are missing from the discourse and practice of Complete Streets what actually results are incomplete streets The volume questions whether the ways in which complete streets narratives policies plans and efforts are envisioned and implemented might be systematically reproducing many of the urban spatial and social inequalities and injustices that have characterized cities for the last century or more From critiques of a mobility bias rooted in the neoliberal foundations of the Complete Streets concept to concerns about resulting environmental gentrification the chapters in Incomplete Streets variously call for planning processes that give voice to the historically marginalized and more broadly that approach streets as dynamic fluid and public social places This interdisciplinary book is aimed at students researchers and professionals in the fields of urban geography environmental studies urban planning and policy transportation planning and urban sociology

Territorial Disputes in the South China Sea J. Huang, A. Billo, 2014-12-09 Heightened tensions in the South China Sea have raised serious concerns about the dangers of conflict in this region as a result of unresolved complex territorial disputes This volume offers detailed insights into a range of country perspectives addressing the historical legal structural regional and multilateral dimensions of these disputes

Religion and the Global City David Garbin, Anna Strhan, 2017-06-29 This is the first book to explore how religious movements and actors shape and are shaped by aspects of global city dynamics Theoretically grounded and empirically informed Religion and the Global City advances discussions in the field of urban religion and establishes future research directions David Garbin and Anna Strhan bring together a wealth of ethnographically rich and vivid case studies in a diversity of urban settings in both Global North and Global South contexts These case studies are drawn from both classical global cities such as London and Paris and also from large cosmopolitan metropolises such as Bangalore Rio de Janeiro Lagos Singapore and Hong Kong which all constitute in their own terms powerful sites within the informational cultural and moral networked economies of contemporary globalization The chapters explore some of the most pressing issues of our times globalization and the role of global neo liberal regimes urban change and in particular the

dramatic urbanization of Global South countries and religious politics and religious revivalism associated for instance with transnational Islam or global Pentecostal Charismatic Christianity *Handbook on Geographies of Technology* Barney Warf, 2017-02-24 This Handbook offers an insightful and comprehensive overview from a geographic perspective of the numerous and varied technologies that are shaping the contemporary world It shows how geography and technology are intimately linked by examining the origins growth and impacts of 27 different technologies and highlighting how they influence the structure and spatiality of society **SOUVENIR of 2nd International Science Congress (ISC-2012)** Prof. Dipak Sharma, The International Science Congress Association organized the 2nd International Science Congress ISC 2012 with Science and Technology Challenges of 21st Century as its focal theme ISC 2012 was divided in 20 sections A total number of 800 Research Papers and 1200 registrations from 23 countries all over the world have been received They was mainly from Bangladesh Bulgariya Cameroun France Greece Iran Iraq Kazakhstan Korea Lithuania Malaysia Nigeria Nepal Phillipines Pakistan Poland Romania Slovakiya USA Ukraine Venezuela Turkey and India **Developmentalist Cities? Interrogating Urban Developmentalism in East Asia** , 2018-11-26 Developmentalist Cities addresses the missing urban story in research on East Asian developmentalism and the missing developmentalist story in studies of East Asian urbanization It does so by promoting inter disciplinary research into the subject of urban developmentalism a term that editors Jamie Doucette and Bae Gyoon Park use to highlight the particular nature of the urban as a site of and for developmentalist intervention The contributors to this volume deepen this concept by examining the legacy of how Cold War and post Cold War geopolitical economy spaces of exception from special zones to industrial districts and diverse forms of expertise have helped produce urban space in East Asia Contributors Carolyn Cartier Christina Kim Chilcote Young Jin Choi Jamie Doucette Eli Friedman Jim Glassman Heidi Gottfried Laam Hae Jinn yuh Hsu Iam Chong Ip Jin Bum Jang Soo Hyun Kim Jana M Kleibert Kah Wee Lee Seung Ook Lee Christina Moon Bae Gyoon Park Hyun Bang Shin **Handbook on Complexity and Public Policy** Robert Geyer, Paul Cairney, 2015-05-29 Over recent years Complexity Science has revealed to us new limits to our possible knowledge and control in social cultural and economic systems Instead of supposing that past statistics and patterns will give us predictable outcomes for possible actions we now know the world is and will always be creative and surprising Continuous structural evolution within such systems may change the mechanisms descriptors problems and opportunities often negating policy aims We therefore need to redevelop our thinking about interventions policies and policy making moving perhaps to a humbler more learning approach In this Handbook leading thinkers in multiple domains set out these new ideas and allow us to understand how these new ideas are changing policymaking and policies in this new era Peter M Allen Cranfield University UK
