According to World Bank data:

- In 1970, the number of world air transport passengers was fewer than 0.5 billion and the UK's share lower than 20 million.
- As the number of airports and aircraft has increased, so have passenger numbers. By 2015, the number for the world was nearly 3.5 billion and for the UK was more than 100 million.
- A number of NEE countries have built impressive large airports such as Shanghai and Hong Kong in China, Singapore, and Dubai in the United Arab Emirates (UAE).
- Patterns have been affected by the 2008 economic recession and because the latest generation of aircraft are larger and more fuel-efficient.
