Who are the Europeans Now? Edward Moxon-Browne,2016-12-05 Challenging the orthodox view that European integration is eroding national identity this groundbreaking volume links identity citizenship and democratic legitimacy in a unique way by focusing on key themes the suggestion that the EMU project is much more than an economic enterprise it will invade national sovereignty and destroy cherished national symbols relating assertive regional and ethnic identities to evolving concepts of EU citizenship and a European identity the danger the whole European project may be in if a genuine EU level citizenship is not created The role of frontiers in the integration process is ambiguous and double edged Frontier zones once had a life of their own and ironically integration emphasizes frontiers in a new way Written by authors of different nationalities and disciplines this timely volume is accessible for readers from many backgrounds and will lead them to a clearer understanding of the metamorphosing New Europe
