Jacobs, 2003-03-14 Harold Jacobs's Geometry created a revolution in the approach to teaching this subject one that gave rise to many ideas now seen in the NCTM Standards Since its publication nearly one million students have used this legendary text Suitable for either classroom use or self paced study it uses innovative discussions cartoons anecdotes examples and exercises that unfailingly capture and hold student interest This edition is the Jacobs for a new generation It has all the features that have kept the text in class by itself for nearly 3 decades all in a thoroughly revised full color presentation that shows today's students how fun geometry can be The text remains proof based although the presentation is

in the less formal paragraph format The approach focuses on guided discovery to help students develop geometric intuition

Axiomatic Geometry John M. Lee, 2013-04-10 The story of geometry is the story of mathematics itself Euclidean geometry was the first branch of mathematics to be systematically studied and placed on a firm logical foundation and it is the prototype for the axiomatic method that lies at the foundation of modern mathematics It has been taught to students for more than two millennia as a mode of logical thought This book tells the story of how the axiomatic method has progressed from Euclid's time to ours as a way of understanding what mathematics is how we read and evaluate mathematical arguments and why mathematics has achieved the level of certainty it has It is designed primarily for advanced undergraduates who plan to teach secondary school geometry but it should also provide something of interest to anyone who wishes to understand geometry and the axiomatic method better It introduces a modern rigorous axiomatic treatment of Euclidean and to a lesser extent non Euclidean geometries offering students ample opportunities to practice reading and writing proofs while at the same time developing most of the concrete geometric relationships that secondary teachers will need to know in the classroom P 4 of cover
